### How to Read the 2010 Locality Fee Schedule for Physicians and Non-physicians

Fees for injectable drugs, prevailing fees, carrier priced codes (codes for which the carrier develops pricing), non covered and bundled procedure codes **are not** included with the locality fee schedule. The locality fee schedule is designed to advise physicians, non-physician practitioners, and suppliers whose payments are linked to the fee schedule of how much Medicare will allow for covered services paid from the physician fee schedule. The locality fee schedule also informs non-participants how much they can legally charge when filing an unassigned claim. Medicare's allowed amount is the lower of the actual charge or the fee schedule amount. The services are listed by *CPT* and Level II (alpha-numeric) procedure codes and modifiers, where applicable. The 2010 HCPCS coding update was used. A brief explanation of each field on the form follows:

PAR ANESTHESIA	These are the physician anesthesia conversion factors for participating providers for services rendered between June 1 and November 30, 2010.
NONPAR ANESTHESIA	These are the physician anesthesia conversion factors for non-participating providers for services rendered between June 1 and November 30, 2010. The conversion factors for non-participating providers are 5% less than those for participating providers.
NON-MEDICALLY DIRECTED CRNA	These are the non-medically directed anesthesia conversion factors for Certified Registered Nurse Anesthetists (CRNAs) for services rendered between June 1 and November 31, 2010. For 2010 the conversion factors for non-medically directed CRNAs are identical to the participating physician conversion factors.
CODE/MOD	The procedure code and modifier (if applicable) used to document the service rendered. Procedure codes which can be defined into separate professional, technical, or global components will have a 26 modifier denoting the professional component and a TC modifier denoting the technical component. For procedures with no modifier, this indicates one of two things; either the entry with no modifier represents the GLOBAL component for a procedure code which can be defined as global, professional, or technical; or that the procedure by descriptor represents either a technical, a professional, or a global service which cannot be further defined with separate components.
PAR FEE SCHEDULE	This is the physician fee schedule amount for participating providers for a service rendered between June 1 and November 30, 2010.
NONPAR FEE SCHEDULE	This is the physician fee schedule amount for non-participating providers for a service rendered between June 1 and November 30, 2010. Fee schedule amounts for non-participating providers are 5% less than those for participating providers. The 5% participating versus non-participating payment differential, previously applicable only to physician fee schedule services billed by a physician, now applies to all services paid for under the physician fee schedule, regardless of what entity bills for the service.
LIMITING CHARGE	For providers who are non-participating effective between June 1 and November 30, 2010, this amount represents the limit that can legally be charged on an unassigned claim to Medicare beneficiaries. Such limits are not applicable to charges made by participating physicians, nor for any services billed on an assigned basis by non-participating physicians. Limiting Charges are not used to determine the payment allowance, but are intended to minimize beneficiary liability on unassigned claims. For 2010, limiting charges are calculated at 115% of the non-participating fee schedule amount, rounded to the nearest penny. Please note that the 115% amount is a cap. Where special payment reductions are used in calculating the actual allowed amount, the limiting charge is equal to 115% of the calculated allowed amount.
LOCALITY	The geographic area based on the location of your practice. For 2010 Florida maintains three (3) payment localities (01/02, 03, 04). A listing of the counties reflecting each payment locality is provided for your information. <b>NOTE:</b> Pricing for localities 01/02 are listed under locality 99.
*FACILITY FEE SCHEDULE	Fee schedule and limiting charge amounts shown with the single asterisk (*) indicate the facility fee payment amount. These services are primarily rendered in an inpatient or outpatient hospital setting, emergency-room hospital, ambulatory surgical center, skilled nursing facility, inpatient psychiatric facility, and comprehensive inpatient or outpatient rehabilitation facility.
NON-FACILITY FEE SCHEDULE	Fee schedule and limiting charge amounts shown without an asterisk (*) indicate the non-facility fee payment amount. These services are primarily rendered in the physician's office or laboratory.
C – OPPTS CAP	Fee schedule and limiting charge amounts shown with "C" indicates the technical component payment amount is capped at the Outpatient Prospective Payment System (OPPS) amount.

All Current Procedural Terminology (*CPT*) codes and descriptors are copyrighted by the American Medical Association

## 2010 Anesthesia Conversion Factors

The conversion factors for use in calculating payment for anesthesia services (procedure codes 00100 through 01999) for service dates June 1 through November 30, 2010, are as follows:

Locality	Participating Physician	Non-participating Physician
99 (01 & 02)	22.58	21.45
03	23.48	22.31
04	24.96	23.71

The conversion factors for 2010 for non-medically directed Certified Registered Nurse Anesthetists (CRNAs) are identical to the participating physician anesthesia conversion factors for each payment locality.

The conversion factors for medically directed CRNAs (for both physician medical direction and medically directed CRNAs) are based on 50 percent of the sum of the anesthesia base units and time units, multiplied by the appropriate participating physician locality conversion factor (i.e., 50 percent of the sum of (base units + time units) X locality conversion factor = anesthesia allowance). The medical direction 50 percent payment policy applies if both a CRNA (or anesthesia assistant) and an anesthesiologist are involved with the same case.

### The limiting charge for unassigned anesthesia services is determined as follows:

- Step 1** Determine the allowance for the anesthesia service Use this formula for physician personally performed services  
-(base units + time units) X non-participating physician locality conversion factor Use this formula for the physician's claim\* for physician medical direction services -[.5 X (base units + time units)] X non-participating physician locality conversion factor
- Step 2** Multiply the result of the above calculation by 1.15 to determine limiting charge.

**\*Note:** Limiting charge does not apply to CRNA or anesthetist claims; assignment is mandatory on these claims.
