

2006 CARRIER PRICED FEES

2006 Carrier-Priced Fee Schedule Services

Reimbursement for most procedures paid on the basis of the Medicare physician fee schedule database (MPFSDB) is calculated by the Centers for Medicare & Medicaid Services (CMS) and provided to carriers annually. These are listed on the MPFSDB with a code status of "A" (active code). Each carrier calculates reimbursement for other procedures, known as "C" status or carrier-priced codes. Per CMS, status "C = Carriers price the code. Carriers will establish RVUs and payment amounts for these services, generally on an individual case basis following review of documentation such as an operative report." In many instances, however, enough historical data has been collected to allow FCSO to develop a consistent allowance for some C status codes. These codes and allowances below are effective for services rendered on or after January 1, 2006.
