About Medicare Participation for Calendar Year 2006

Your commitment and participation in the Medicare program provides a lifeline to millions of seniors, disabled, and individuals with end-stage renal disease.

Medicare continues to evolve in many important new ways in 2006. One of the most significant is that Medicare Prescription Drug Coverage will be available to all people with Medicare beginning January 1, 2006. Therefore, for the first time, Medicare will pay for most of the drugs many of your patients rely on everyday.

The 2006 physician fee schedule currently includes a negative 4.4 percent update. The reduction in the fee schedule rates results from a formula specified in Medicare law to account for the continued rapid spending growth in total Medicare physician spending. However, CMS is working closely and collaboratively with medical professionals and the Congress to consider changes to how Medicare compensates physicians for providing services to Medicare beneficiaries. At the same time, and as a growing number of stakeholders now agree, we must increase our emphasis on payment based on improving quality and avoiding unnecessary costs to solve the problems with the current physician payment system.

All physicians, practitioners and suppliers must make their calendar year (CY) 2006 Medicare participation decision by December 31, 2005.

To sign a participation agreement is to agree to accept assignment for all covered services that you provide to Medicare patients in CY 2006.

WHY PARTICIPATE?

If you bill for physicians' professional services, services and supplies provided incident to physicians' professional services, outpatient physical and occupational therapy services, diagnostic tests, or radiology services, your Medicare fee schedule amounts are 5 percent higher if you participate. Also, providers receive direct and timely reimbursement from Medicare.

Regardless of the Medicare Part B services for which you are billing, participants have "one stop" billing for beneficiaries who assign both their Medicare and Medigap payments to participants. Beneficiaries with Medigap coverage (private supplemental insurance) may assign the payment on the supplemental claim to the provider or supplier. Under the current mandatory Medigap (claim-based) crossover process, beneficiaries must assign payment on their claims to a participating provider or supplier as a condition for their claims to be forwarded to their Medigap insurer for payment of all coinsurance and deductible amounts due under the Medigap policy. The Medigap

insurer, in turn, must pay the participating provider or supplier directly, thereby relieving the need of having to file a second claim.

The majority of physicians, practitioners and suppliers have chosen to participate in Medicare. During CY 2005, 91.6 percent of all physicians, practitioners and suppliers are billing under Medicare participation agreements.

WHAT TO DO

If you choose to be a participant in CY 2006:

- Do nothing if you are currently participating, or
- If you are not currently a Medicare participant, complete the blank agreement enclosed and mail it (or a copy) to each carrier to which you submit Part B claims. (On the form show the name(s) and identification number(s) under which you bill.)

If you decide not to participate in CY 2006:

- Do nothing if you are currently not participating, or
- If you are currently a participant, write to each carrier to which you submit claims, advising of your termination effective January 1, 2006. This written notice must be postmarked prior to January 1, 2006.

Hold onto this announcement during this enrollment period. You may want to refer to it again before making your decision regarding Medicare participation for CY 2006.

We hope you will decide to be a Medicare participant in CY 2006.

Introduction

This Special Edition article is being provided to help you, the Medicare physician and health care professional, keep informed about important Medicare initiatives and additional new Medicare benefits available in Calendar Year (CY) 2006.

As you once again make your decision to enroll in or terminate enrollment in the Medicare participation program, the Centers for Medicare & Medicaid Services (CMS) would like to take this opportunity to review some important news, especially upcoming news for 2006.

CMS believes this information provides significant benefits to providers and their Medicare patients, and it will encourage providers to enroll in, or stay in, the Medicare participation program in order to take full advantage of the upcoming changes.

Information You Need to Know

Ending the Medicare HIPAA Contingency Plan

Based on the progress made by the health care community in implementing the administrative simplification standards of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) since October 2003, CMS ended the *Medicare HIPAA Contingency Plan* for incoming claims as of October 1, 2005.

October 16, 2003, was the deadline for compliance with the electronic transaction and code set standards of HIPAA. While the vast majority of Medicare providers are in compliance with the HIPAA standards, more work remains to be done to get all electronic billing Medicare providers into compliance. To be in compliance with the law, every Medicare electronic billing provider must submit HIPAA-compliant claims.

It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

To ensure that you stay informed about HIPAA issues, CMS encourages you to visit the following web pages for the latest news affecting you. To access the national educational articles distributed as part of the *Medlearn Matters* process, visit <http://www.cms.hhs.gov/medlearn/matters/> on the CMS web site. Take special note of *Medlearn Matters* article MM3956. To access a variety of issues related to HIPAA policies affecting Medicare providers, visit <http://www.cms.hhs.gov/providers/edi/> on the CMS web site.

Release of HIPAA Security Rule

By April 21, 2005, all covered entities under HIPAA (except small health plans) were required to ensure the security of electronic protected health information. Small health plans have until April 21, 2006, to meet the *HIPAA Security Compliance Deadline*.

CMS has released the HIPAA Security Rule, which outlines the administrative, physical, and technical safeguards that a covered entity must implement to be in compliance with the HIPAA security standards. A copy of the rule may be downloaded from <https://www.cms.hhs.gov/hipaa/hipaa2> on the CMS web site.

CMS is eager to help you understand and implement the strategies for complying with the Security Rule and has developed educational materials that are available at <http://www.cms.hhs.gov/hipaa/hipaa2> on the CMS web site. In addition, there are a number of professional and standards-setting organizations that offer listservs, white papers, and other helpful resources on security implementation.

National Provider Identifier

Health care providers who are covered entities under HIPAA are required by law to apply for a *National Provider Identifier (NPI)*. The NPI will replace health care provider identifiers in use today in standard health care transactions. The health plans with which you do business will instruct you as to when you may begin using the NPI in standard transactions. All HIPAA-covered entities except small health plans must begin using their NPI in standard electronic transactions by May 23, 2007; small health plans have until May 23, 2008.

To apply online, visit <https://nppes.cms.hhs.gov>, or call 1-800-465-3203 to request a paper application. Also, visit <http://www.cms.hhs.gov/hipaa/hipaa2> for the latest information regarding the NPI, including a transcript from CMS's recent National Provider Identifier Roundtable conference call.

Therapy Services

Therapy Services are defined as outpatient physical therapy, occupational therapy, and speech-language pathology. These services were limited through the Balanced Budget Act of 1997. Limits have been imposed twice, once in 1999 and for a few months in 2003. These limits are scheduled to be implemented again on January 1, 2006. Therapy services will be limited for each beneficiary for the year.

Disclaimer

This article was prepared as a service to the public and is not intended to grant rights or impose obligations. This article may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

The allowable amount is estimated to be \$1,750, but this may change based on the Medicare Economic Index at the end of the year. The amount applies for physical therapy and speech-language pathology combined, and for occupational therapy alone.

Therapy services performed in a physician's office must follow the standards and conditions listed in the manuals and must be identified with a modifier for physical therapy, occupational therapy, or speech-language pathology.

Those services identified as outpatient "therapy" are listed in the *Medicare Claims Processing Manual* (Pub 100-04), Chapter 5, Section 20. The benefit policies are in the *Medicare Benefit Policy Manual* (Pub 100-02), Chapter 15, Sections 220 and 230.

Medicare Contracting Reform

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA, Section 911) requires CMS to take the necessary steps between now and October 2011, to implement *Medicare Contracting Reform*. Although health care delivery in the United States has evolved through four decades of advances in medicine and technology, the contracting portion of Medicare's fee-for-service administrative structure has not.

Medicare Contracting Reform will bring standard contracting principles to Medicare, such as competition and performance incentives that the government has long applied to other federal programs under the Federal Acquisition Regulation.

Medicare Administrative Contractor (MAC) Authority

CMS is required to replace the current contracting authority with the new *Medicare Administrative Contractor (MAC)* authority. The law directs CMS to conduct full and open competitions for these new MACs. A/B MACs will administer both the Part A and Part B work currently being handled by Fiscal Intermediaries (FI) and carriers in 15 designated geographical jurisdictions.

Home health/hospice MACs will perform work currently performed by Regional Home Health Intermediaries (RHHIs) in four designated geographical jurisdictions, while Durable Medical Equipment (DME) MACs will perform the work of the current Durable Medical Equipment Regional Carriers (DMERCs) in four designated geographical jurisdictions that correspond to the jurisdictions of the home health/hospice MACs.

Start-Up Acquisition and Transition Cycles

CMS plans to begin to compete these workloads with a start-up acquisition and transition cycle. This start-up cycle is the competition of the current DMERC workloads and the A/B workload for Jurisdiction 3, a first step that focuses on a small discrete workload. The start-up cycle is currently ongoing. The procurement schedule anticipates the DME workload will be awarded in December 2005 and the Part A/Part B workload for Jurisdiction 3 will be awarded in June 2006.

That start-up cycle will be followed by MAC acquisition and transition Cycles One and Two. CMS anticipates each of these acquisition cycles will take approximately 9 to 12 months, from solicitation to award. CMS expects to award the Cycle One procurement in September 2007 and Cycle Two in September 2008. The subsequent transition of workload from the existing contractors to the new MACs will last from approximately 7 to 13 months. Under this schedule, the full fee-for-service workload will be transitioned to MACs by October 2009.

For the most current information available, including the acquisition schedule for each MAC jurisdiction, visit the Medicare Contracting Reform web site at <http://www.cms.hhs.gov/medicarereform/contractingreform/> on the CMS web site.

New Benefits for People with Medicare

The 2006 calendar year introduces new health benefits for people with Medicare, resulting from the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA). The full text of this Act can be found at <http://www.cms.hhs.gov/medicarereform/MMAactFullText.pdf> on the CMS web site.

Preventive Services Benefits

This MMA initiative was implemented in 2005. This is a **reminder** to you that newly covered preventive services include diabetes screening tests for seniors at risk for diabetes and blood tests to screen for cardiovascular disease. Also beginning in 2005, people enrolling in Medicare for the first time were eligible for an initial preventive physical exam, including an exam and an electrocardiogram, in addition to the other preventive and screening services that were already available: adult immunizations; electrocardiograms; pelvic exams; pap smears; mammograms; screenings for prostate and colorectal cancer, glaucoma, diabetes, and cardiovascular disease; and other preventive services.

Visit <http://www.cms.hhs.gov/partnerships/tools/2005preventive/default.asp> on the CMS web site to access educational materials about these benefits for you, your staff, and Medicare patients.

Medicare Prescription Drug Coverage

Beginning January 1, 2006, Medicare Prescription Drug Coverage will be available to all people with Medicare. Insurance companies and other private companies will be working with Medicare to offer drug plans and negotiate discounts on drug prices. These plans are different from the Medicare-approved drug discount cards that phase out by May 15, 2006 (or when a beneficiary's enrollment in a Medicare prescription drug plan takes effect, if earlier). Where the cards offered discounts, the plans will offer insurance coverage for prescription drugs. Visit <http://www.cms.hhs.gov/medlearn/drugcoverage.asp> to access educational materials about this proposed benefit for you, your staff, and Medicare patients.

The Medicare Chronic Care Improvement Initiative ("Medicare Health Support")

This initiative, which currently consists of eight regional pilot programs, is the first large-scale chronic care improvement initiative for targeted groups of beneficiaries under the Medicare Fee-For-Service (FFS) program. CMS selected Medicare Health Support Organizations (MHSOs) that offer self-care guidance and support to chronically ill beneficiaries. MHSOs help beneficiaries manage their health, adhere to their physicians' plans of care, and ensure that they seek or obtain medical care that they need to reduce their health risks. The pilot programs all have the following features:

- Initially, the programs are focused on beneficiaries who have Congestive Heart Failure (CHF) and/or Complex Diabetes, because these beneficiaries have heavy self-care burdens and high risks of experiencing poor clinical and financial outcomes. Approximately 20,000 beneficiaries have been invited to participate in each pilot program.

It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

- The new programs are **not** single-disease focused. They are to help participants manage **all** their health problems.
- Participation is voluntary. Eligible beneficiaries do not have to change plans or providers or pay extra to participate. Their Medicare benefits remain unchanged.
- The pilot programs are currently available in 6 areas of the United States; another two programs will be operational by January 1, 2006.

For an overview of the initiative, download the fact sheet that describes “Medicare Health Support” at <http://www.cms.hhs.gov/medicarereform/ccip/> on the CMS web site. Also, an informative *Medlearn Matters* article is available on this program at <http://www.cms.hhs.gov/medlearn/matters/mmarticles/2005/MM3953.pdf>, also on the CMS web site.

Payment Information

Competitive Acquisition Program

The MMA requires the implementation of a *Competitive Acquisition Program (CAP)* for Medicare Part B drugs and biologicals not paid on a cost or prospective payment system basis. Under the new program, scheduled to be implemented by July 1, 2006, physicians will be given a choice between buying and billing these drugs under the Average Sales Price (ASP) system, or selecting a Medicare-approved CAP vendor that will supply these drugs.

If the physician elects to obtain drugs through the CAP, the vendor will bill Medicare for the drug. The vendor will also bill the beneficiary for any applicable coinsurance and deductible. Physician enrollment in the program is anticipated to begin in the spring of 2006 for July through December 2006, and will then be conducted annually, in the fall of each year, for the following calendar year.

To access MMA, Section 303(d), go to <http://www.cms.hhs.gov/providers/drugs/compbid/303d.pdf> on the CMS web site. More information about the ASP system can be found at <http://www.cms.hhs.gov/providers/drugs/asp.asp> on the CMS web site. The following web site is meant to keep physicians informed about enrollment procedures, approved drug vendors, and drugs that may be obtained through the program: <http://www.cms.hhs.gov/providers/drugs/compbid>. In addition, a full press release and fact sheet can be viewed at: <http://www.cms.hhs.gov/media/press/release.asp?Counter=1490> on the CMS web site.

Geographic Discrepancies and Scarcity Bonus Payments

Starting in 2004 and continuing through 2006, the MMA required that the geographic practice costs indices (GPCIs) applied to the physician work portion of the physician fee schedule may not be below 1.0. This provision increases payment rates in 57 of the country's 89 payment localities, and payments will go up for services provided up to the national average rate in areas that were previously below the national average.

Starting in 2005 and continuing through 2007, *Scarcity Bonus Payments* (a five percent (5%) bonus payment) will be paid to primary care and specialists providing care to Medicare beneficiaries in newly defined shortage areas. The new shortage areas are those counties with the lowest ratio of primary care/specialist physicians to Medicare beneficiaries and which represent an aggregate total of twenty percent (20%) of the total Medicare beneficiaries in the county.

Within the official instructions issued by CMS are detailed instructions regarding services eligible for Health Professional Shortage Areas (HPSA) and Physician Scarcity Area (PSA) bonus payments, HPSA incentive payments for services rendered in a critical access hospital (CAH), as well as HPSA designations and information regarding zip codes.

The official instruction issued to your carrier and intermediary regarding this change in the HPSA modifier may be found by going to:

http://www.cms.hhs.gov/manuals/transmittals/comm_date_dsc.asp on the CMS web site. From that web page, look for CR3935 in the CR NUM column on the right, and click on the file for the desired CR. A *Medlearn Matters* article is also available related to this transmittal at <http://www.cms.hhs.gov/medlearn/matters/mmarticles/2005/MM3935.pdf> on the CMS web site. Additional information on the PSA bonus can be found in *The Guide for Using the HPSA/PSA Web Page*, at <http://www.cms.hhs.gov/providers/bonuspayment/guide.pdf> on the CMS web site.

Medicare Incentive Payment Program

Also beginning in 2005, the MMA modified the bonus payment program, which provides ten percent (10%) bonus payments to physicians in HPSAs. The bonus payments will be automatic for physicians practicing in counties that qualify as full HPSAs.

The PSA bonus payment was established in 2005 and per the MMA is currently scheduled to continue through 2007. This five percent (5%) bonus payment is paid to primary care physicians and specialists providing care to Medicare beneficiaries in PSA shortage areas. The PSA shortage areas are those counties with the lowest ratio of primary care/specialist physicians to Medicare beneficiaries and which represent an aggregate total of twenty percent (20%) of the total Medicare beneficiaries in the country.

Additional information for physicians to use to determine whether the location where they provide a service is eligible for a bonus payment and how they should code their claims to receive that payment can be found at <http://www.cms.hhs.gov/providers/bonuspayment> on the CMS web site.

- No more waiting for SPRs to arrive in the mail;
- The capability to print an individual's claim to send to other insurers; and
- The capability to create reports on Denied, Adjusted, and Deductible Claims.

For Physicians

As a reminder, the very popular *Medicare Resident & New Physician Training (MRNPT) Program Facilitator's Kit* is still available from the Medlearn web site. To order a copy, go to the Medlearn Product Ordering page at <http://www.cms.hhs.gov/medlearn> and select *Medicare Learning Network Products Catalog* at the link above.

Don't forget to check the *Medicare Physician Web Page*, which is designed to meet the Medicare information needs of physicians. The page is available on the CMS web site at <http://cms.hhs.gov/physicians/> and includes links to general information on enrollment, billing, conditions of participation, publications, education, data, and statistics. A special feature link on the page is the Medicare Physician Fee Schedule Look-up, an application that enables users to look up physician service information regarding fee schedule amounts and geographic practice cost indices for every carrier and locality.

Advocacy Resources for Physicians

The *Physicians Regulatory Issues Team (PRIT)* is a team of CMS subject matter experts who work to reduce the regulatory burden on physicians who participate in the Medicare Program. Physicians play the central role in our health care system; they not only care for the health of individual patients, but also help to shape the broad health care delivery system.

As the federal agency that manages the Medicare program, CMS is committed to helping physicians focus on quality patient care by being their best business partner. The Medicare program and physicians share a common mission: providing high-quality medical care to patients. CMS encourages you to share your suggestions on how to improve the Medicare program by contacting the PRIT at 202-690-5907, or by sending an email to PRIT@cms.hhs.gov. That web site can be found at <http://www.cms.hhs.gov/physicians/prit/>

The PRIT is not the only advocate physicians have at Medicare. The *Physicians and Allied Health Open Door Forum* initiative is a monthly conference call with CMS policy experts and CMS senior staff. Physicians and their office staff are encouraged to participate. They can ask questions about Medicare issues or simply listen to stay current on Medicare policy. For the date and time of the next Open Door Forum, visit the Open Door web site at <http://www.cms.hhs.gov/opendoor/schedule.asp> on the CMS web site.

also help them enroll in other health care and prescription drug assistance programs, was developed by the Administration on Aging (AoA) with the assistance of CMS and the National Council on the Aging (NCOA).

The new service is a special version of *BenefitsCheckUpRx*, updated for the extra help with Medicare drug coverage. It is available at <http://www.BenefitsCheckUp.org/rx>. BenefitsCheckUpRx will help older adults and the advocates who work with them take advantage of the Medicare low-income subsidy, the comprehensive extra help that covers 95 percent of drug costs on average for people with Medicare who have limited means. Applications are available now and, all together, about one in three Medicare beneficiaries are eligible for the extra help. A press release describing the service can be found at <http://www.cms.hhs.gov/media/press/release.asp?Counter=1502> on the CMS web site.

Hospital Compare

CMS launched *Hospital Compare* nationally on its web site on April 1, 2005. For the first time, consumers are better able to compare the quality of care in nearly all of the nation's hospitals using quality information now available from CMS and the Hospital Quality Alliance (HOA). The new information provides consumers with standardized assessments of the care that nearly 4,200 hospitals across the country provide to all adult patients, based on valid and reliable measures that have been shown to reflect quality of care. Hospital Compare is available on the Internet at <http://www.hospitalcompare.hhs.gov> or <http://www.medicare.gov>.
