Medicare Pharmacies and Other Suppliers May Temporarily Enroll as Independent Clinical Diagnostic Laboratories to Help Address COVID-19 Testing

Provider type affected

This MLN Matters Article is for Medicare-enrolled pharmacies and other Medicare-enrolled suppliers, or pharmacies and suppliers seeking to enroll temporarily as independent clinical diagnostic laboratories to help address the urgent need for COVID-19 testing.

What you need to know

Pharmacies and other suppliers currently enrolled in Medicare may also enroll temporarily as independent clinical diagnostic laboratories during the COVID-19 public health emergency via the provider enrollment hotline. This will provide additional laboratory resources to meet the

urgent need to increase COVID-19 testing capability.

Pharmacies and other suppliers who are not currently enrolled in Medicare and want to enroll as an Independent Clinical Diagnostic Laboratory, must submit a [CMS-855B](#) enrollment application to the Medicare Administrative Contractor (MAC) serving your geographic area. To locate your designated MAC, see <https://www.cms.gov/Medicare/Medicare-Contracting/Medicare-Administrative-Contractors/Downloads/MACs-by-State-June-2019.pdf>.

MEDICARE

from page 1

suppliers can initiate temporary Medicare independent clinical diagnostic laboratory billing privileges via the provider enrollment hotline (see hotline information below). To start the process, you will need to provide limited information, including:

- Legal Business Name
- National Provider Identifier (NPI)
- Tax Identification Number (TIN)
- State license
- CLIA certificate number (see below)
- Address information
- Contact information (telephone number)

Your MAC will collect this information from you over the phone, however, temporary Medicare billing privileges will not be established during the phone conversation. The MAC will notify the pharmacy or other supplier of their temporary Medicare billing privileges and effective date via email within 2 business days.

To maintain billing privileges as an Independent Clinical Diagnostic Laboratory, the pharmacy or other supplier must submit a [CMS-855B](#) enrollment application within 30 days after the public health emergency ends to the MAC serving your geographic area.

Provider Enrollment Hotline Information

Medicare-enrolled pharmacies and other Medicare-enrolled suppliers seeking to initiate temporary Medicare independent clinical diagnostic laboratory billing privileges should only contact the hotline for the MAC serving your geographic area. To locate your designated MAC see <https://www.cms.gov/Medicare/Medicare-Contracting/Medicare-Administrative-Contractors/Downloads/MACs-by-State-June-2019.pdf>.

The hotlines are operational Monday – Friday and at the specified times below.

- Hours of Operation: 7:00 am – 4:00 pm CT

Important Clinical Laboratory Improvement Amendments (CLIA) Certificate Number Information

Note that the CLIA program does not allow the Centers for Medicare & Medicaid Services (CMS) to approve section 1135 waiver requests with respect to waivers of CLIA program requirements for public health emergencies. The section 1135 waiver authority is only applicable to specified programs (or penalties) authorized by the Social Security Act (SSA). The CLIA program does not fall into this category of programs. CMS does not have the authority to grant waivers or exceptions that are not established in statute or regulation.

If you would like to apply for a CLIA certificate, please submit your application form ([CMS-116, CLIA Application Form](#)) to the state ([SA Contacts](#)) where the laboratory is located.

CMS wants to ensure that laboratories located in the United States applying for a CLIA certificate are able to begin testing for COVID-19 as quickly as possible. Once the laboratory has identified a qualified laboratory director and has provided all required information on the CMS-116 application, a CLIA number will be assigned. Once the CLIA number has been assigned, the laboratory can begin testing as long as applicable CLIA requirements have been met (for example, establishing performance specifications).

Note that different CLIA program certificates correspond to the complexity of tests performed by a given laboratory. For example, laboratories with a Certificate of Waiver can only conduct tests designated as waived by the Food and Drug Administration (FDA). More information is available at <https://www.cms.gov/Regulations-and-Guidance/Legislation/CLIA/Downloads/HowObtainCLIACertificate.pdf>.

Information specific to obtaining a CLIA Certificate of Waiver is available at <https://www.cms.gov/Regulations-and-Guidance/legislation/CLIA/downloads/howobtaincertificateofwaiver.pdf>.

COVID-19: Allowances for laboratory test codes U0001-U0004 and 87635

The Centers for Medicare & Medicaid Services (CMS) has established new codes for laboratory tests for the novel coronavirus (COVID-19). CMS provided pricing for codes U0001 and U0002, but instructed Medicare administrative contractors (MACs) to develop the allowance for the remaining codes. The codes and allowances are as follows:

Code	Allowance
U0001	\$35.92
U0002	\$51.31
U0003	\$100.00
U0004	\$100.00
87635	\$51.31

Source: <https://www.cms.gov/files/document/mac-covid-19-test-pricing.pdf>

Where do I find...

Looking for something specific and don't know where to find it? Find out how to perform routine tasks or locate information that visitors frequently visit our site to accomplish or find. Check out the "Where do I find" page.

This section of *Medicare A Connection* features summaries of new and revised local coverage determinations (LCDs) developed as a result of either local medical review or comprehensive data analysis initiatives. These initiatives are designed to ensure the appropriateness of medical care and to make sure that the Medicare administrative contractor (MAC) jurisdiction N (JN) Part A LCDs and review guidelines are consistent with accepted standards of medical practice.

Refer to our [LCDs/Medical Coverage webpage](#) for full-text LCDs, including final LCDs, draft LCDs available for comment, LCD statuses, and LCD comment/response summaries.

Effective and notice dates

Effective dates are provided in each LCD, and are based on the date services are furnished unless otherwise noted in the LCD. Medicare contractors are required to offer a 45-day notice period for LCDs; the date the LCD is posted to the website is considered the notice date.

Electronic notification

To receive quick, automatic notification when new and revised LCDs are posted to the website, subscribe to the [First Coast eNews mailing list](#). Simply enter your email address and select the subscription option that best meets your needs.

More information

For more information, or, if you do not have internet access, to obtain a hardcopy of a specific LCD, contact Medical Policy at:

Medical Policy and Procedures
PO Box 2078
Jacksonville, FL 32231-0048

Looking for LCDs?

Would you like to find local coverage determinations (LCD) in 10 seconds or less? [First Coast's LCD lookup](#) helps you find the coverage information you need quickly and easily. Just enter a procedure code, keyword, or the LCD's "L number," click the corresponding button, and the application will automatically display links to any LCDs applicable to the parameters you specified. Best of all, depending upon the speed of your internet connection, the LCD search process can be completed in less than 10 seconds.

Advance beneficiary notice

Modifier GZ must be used when physicians, practitioners, or suppliers want to indicate that they expect that Medicare will deny an item or service as not reasonable and necessary and they **have not had** an advance beneficiary notification (ABN) signed by the beneficiary.

Note: Line items submitted with the modifier GZ will be automatically denied and will not be subject to complex medical review.

Modifier GA must be used when physicians, practitioners, or suppliers want to indicate that they expect that Medicare will deny a service as not reasonable and necessary and they **do have** on file an ABN signed by the beneficiary.

All claims not meeting medical necessity of a local coverage determination must append the billed service with modifier GA or GZ.

Find fees faster: Try First Coast's fee schedule lookup

Find the fee schedule information you need fast - with [First Coast's fee schedule lookup](#). This exclusive online resource features an intuitive interface that allows you to search for fee information by procedure code. Plus, you can find any associated local coverage determinations (LCDs) with just the click of a button.

New LCD/Article

Magnetic-resonance-guided focused ultrasound surgery (MRgFUS) for essential tremor – new Part A and Part B LCD/billing and coding article

LCD/Article ID number: L38506/A57884
(Florida/Puerto Rico/U.S. Virgin Islands)

This is a new local coverage determination (LCD) that clarifies coverage indications and limitations for magnetic-resonance-guided focused ultrasound surgery (MRgFUS) for essential tremor (ET) that is refractory to more traditional treatment (e.g., medical therapy, deep brain stimulation [DBS]). Also, the related billing and coding article (A57884) addresses coding guidelines in support of the reasonable and necessary services as outlined in the LCD.

Effective date

This new LCD/billing and coding article is effective for services rendered **on or after July 12, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

A billing and coding article for an LCD may be found by selecting “Related Local Coverage Documents” in the “Section Navigation” drop-down menu at the top of the LCD page.

Note: To review active, future and retired LCDs, please [click here](#).

Revised LCDs/Articles

Percutaneous vertebral augmentation (PVA) for vertebral compression fracture (VCF) – revision to the Part A and Part B LCD

LCD/Article ID number: L34976/A57872
(Florida/Puerto Rico/U.S. Virgin Islands)

Based on review of new literature and current data analysis, the local coverage determination (LCD) for vertebroplasty, vertebral augmentation; percutaneous has been revised to provide clarification of coverage indications and limitations. The “Covered Indications”, “Limitations”, “Summary of Evidence”, “Analysis of Evidence”, and “Bibliography” sections of the LCD have been updated to include language which supports the limited coverage outlined in the LCD. In addition, the LCD title was changed to “percutaneous vertebral augmentation (PVA) for vertebral compression fracture (VCF)”. Also, a new percutaneous vertebral augmentation (PVA) for vertebral compression fracture (VCF) billing and coding article (A57872) was created to address coding guidelines in support of the reasonable and necessary services as outlined in the LCD.

Furthermore, when the revised LCD and new billing and coding article (A57872) become effective, the current billing and coding article (A57705) will be retired.

Effective date

This LCD revision and new billing and coding article are effective for services rendered **on or after July 12, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

A billing and coding article for an LCD may be found by selecting “Related Local Coverage Documents” in the “Section Navigation” drop-down menu at the top of the LCD page.

Note: To review active, future and retired LCDs, please [click here](#).

Scanning computerized ophthalmic diagnostic imaging (SCODI) – revision to the Part A and Part B billing and coding article

Article ID number: A57804 (Florida/Puerto Rico/U.S. Virgin Islands)

Due to the retirement of the fundus photography local coverage determination (L33670), the “Coding Guidelines” section of this billing and coding article was revised to remove all language related to the fundus photography LCD (L33670). In addition, language to define a monthly bill cycle timeframe as 28 calendar days for billing purposes was added to the “Article Guidance/Article Text” section of the billing and coding article.

Effective date

This billing and coding article revision is effective for services rendered **on or after April 24, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

A billing and coding article for an LCD may be found by selecting “Related Local Coverage Documents” in the “Section Navigation” drop-down menu at the top of the LCD page.

Note: To review active, future and retired LCDs, please [click here](#).

Micro-invasive glaucoma surgery (MIGS) – revision to the Part A and Part B billing and coding article

Article ID number: A56647 (Florida/Puerto Rico/U.S. Virgin Islands)

Based on further review, the “Coding Guidelines” section of the micro-invasive glaucoma surgery (MIGS) billing and coding article was revised to add Current Procedural Terminology (CPT®) codes 66987 and 66988.

Effective date

This billing and coding article revision is effective for claims processed **on or after April 27, 2020**, for services

rendered **on or after January 1, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

A billing and coding article for an LCD may be found by selecting “Related Local Coverage Documents” in the “Section Navigation” drop-down menu at the top of the LCD page.

Note: To review active, future and retired LCDs, please [click here](#).

Dysphagia/swallowing diagnosis and therapy – revision to the Part A and Part B billing and coding article

Article ID number: A57675 (Florida/Puerto Rico/U.S. Virgin Islands)

Due to the retirement of the Part B diagnostic nasal endoscopy local coverage determination LCD (L33815), the “CPT®/HCPCS Codes/Group 1 Paragraph:” section of the dysphagia/swallowing diagnosis and therapy billing and coding article was revised to remove all language related to the diagnostic nasal endoscopy LCD (L33815).

Effective date

This billing and coding article revision is effective for

services rendered **on or after April 29, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

A billing and coding article for an LCD may be found by selecting “Related Local Coverage Documents” in the “Section Navigation” drop-down menu at the top of the LCD page.

Note: To review active, future and retired LCDs, please [click here](#).

Noncovered services – revision to the Part A and Part B billing and coding article

Article ID number: A57743 (Florida/Puerto Rico/U.S. Virgin Islands)

Based on a local coverage determination (LCD) challenge, the noncovered services billing and coding article was revised to remove the implantable interstitial glucose sensor Current Procedural Terminology (CPT®) codes 0446T, 0447T, and 0448T from the “CPT®/HCPCS Codes/ Group 1 Codes:” section of the billing and coding article.

Effective date

This billing and coding article revision is effective for services rendered **on or after May 7, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

A billing and coding article for an LCD may be found by selecting “Related Local Coverage Documents” in the “Section Navigation” drop-down menu at the top of the LCD page.

Note: To review active, future and retired LCDs, [click here](#).

Retired LCDs/Articles

Multiple Part A and Part B LCDs and billing and coding articles being retired

LCD and Article ID numbers: L33600/A57541, L33670/A57075, L33997/A57714 (Florida/Puerto Rico/U.S. Virgin Islands)

Based on review of the following local coverage determinations (LCDs) and billing and coding articles, it was determined that they are no longer required and therefore, are being retired.

- L33600/A57541 Sinus X-ray(s)
- L33670/A57075 Fundus Photography
- L33997/A57714 Fluorescein Angiography

Effective date

The retirement of these LCDs and billing and coding articles is effective for services rendered **on or after April 24, 2020**.

LCDs are available through the CMS Medicare coverage database at <https://www.cms.gov/medicare-coverage-database/overview-and-quick-search.aspx>.

Upcoming provider outreach and educational events

Medicare quarterly updates (A)

Date: Tuesday, June 16

Time: 10 a.m. - 11:30 a.m. ET

Type of Event: Webcast

View our complete calendar of events

Note: Unless otherwise indicated, designated times for educational events are stated as ET, and the focus is to Florida, Puerto Rico, and the U.S. Virgin Islands.

Two easy ways to register

Online – Visit our provider training website at [First Coast University](#), log on to your account and select the course you wish to register. Class materials are available under “My Courses” no later than one day before the event.

First-time User? Set up an account by completing [Create User Account Form](#) online. Providers who do not have yet a national provider identifier may enter “99999” in the NPI field. You will receive logon information within 72 hours of your request.

Fax – Providers without internet access may request a fax registration form through our Registration Hotline at 1-904-791-8103. Class materials will be faxed to you the day of the event.

Please Note:

- Pre-registration is required for all teleconferences, webcasts and in-person educational seminars.
- Dates and times are subject to change prior to opening of event registration.

Registrant's Name: _____

Registrant's Title: _____

Provider's Name: _____

Telephone Number: _____ Fax Number: _____

Email Address: _____

Provider Address: _____

City, State, ZIP Code: _____

Keep checking our [website](#) for details and newly scheduled educational events (teleconferences, webcasts, etc.).

Never miss a training opportunity

If you or your colleagues were unable to attend one of our past Medicare educational webcasts, you still have the opportunity to learn about the topics covered during the training session. Visit the First Coast Medicare training website, download the recording of the event, and listen to the webcast when you have the time.

Take advantage of 24-hour access to free online training

In addition to live training events, we also offer you the advantage of self-paced, free online courses that will allow you and your staff to train when and where it is most convenient for you. In addition, our comprehensive course catalog allows you to find the Medicare training that fits your specific needs, and several of our online courses offer CEUs. Learn more on the First Coast Medicare training website and explore our catalog of online courses.

CMS MLN Connects®

The Centers for Medicare & Medicaid Services (CMS) *MLN Connects*® is an official *Medicare Learning Network*® (MLN) – branded product that contains a week’s worth of news for Medicare fee-for-service (FFS) providers. CMS sends these messages weekly to national health industry provider associations, who then disseminates the *MLN Connects*® to its membership as appropriate.

COVID-19: Nursing Home Transparency, Recommendations for Areas with Low Incidence of Disease

- [Trump Administration Announces New Nursing Homes COVID-19 Transparency Effort](#)
- [CMS Issues Recommendations to Re-Open Health Care Systems in Areas with Low Incidence of COVID-19](#)

Trump Administration Announces New Nursing Homes COVID-19 Transparency Effort

Agencies partner with nursing homes to keep nursing home residents safe

On April 19, under the leadership of President Trump, the Centers for Medicare & Medicaid Services (CMS) announced [new regulatory requirements](#) that will require nursing homes to inform residents, their families, and representatives of COVID-19 cases in their facilities. In addition, as part of President Trump’s Opening Up America, CMS will now require nursing homes to report cases of COVID-19 directly to the Centers for Disease Control and Prevention (CDC). This information must be reported in accordance with existing privacy regulations and statute. This measure augments longstanding requirements for reporting infectious disease to state and local health departments. Finally, CMS will also require nursing homes to fully cooperate with CDC surveillance efforts around COVID-19 spread.

CDC will be providing a reporting tool to nursing homes that will support federal efforts to collect nationwide data to assist in COVID-19 surveillance and response. This joint effort is a result of the CMS-CDC Work Group on Nursing Home Safety. CMS plans to make the data publicly available. This effort builds on recent recommendations from the [American Health Care Association](#) and [Leading Age](#), two large nursing home industry associations, that nursing homes quickly report COVID-19 cases.

This data sharing project is only the most recent in the Trump Administration’s rapid and aggressive response to the COVID-19 pandemic. More details are available in the [Press Release](#) and [Guidance Memo](#).

CMS Issues Recommendations to Re-Open Health Care Systems in Areas with Low Incidence of COVID-19

On April 19, the Centers for Medicare & Medicaid Services issued new recommendations specifically targeted to communities that are in Phase 1 of the Guidelines for President Trump’s Opening Up America Again with low incidence or relatively low and stable incidence of COVID-19 cases. The recommendations update earlier guidance provided by CMS on limiting non-essential surgeries and medical procedures. The new CMS guidelines recommend a gradual transition and encourage health care providers to coordinate with local and state public health officials and to review the availability of Personal Protective Equipment (PPE) and other supplies, workforce availability, facility readiness, and testing capacity when making the decision to re-start or increase in-person care.

The new recommendations can be found here: <https://www.cms.gov/files/document/covid-flexibility-reopen-essential-non-covid-services.pdf>

The Guidelines for Opening Up America Again can be found here: <https://www.whitehouse.gov/openingamerica/#criteria>

CMS Reevaluates Accelerated Payment Program and Suspends Advance Payment Program

On April 26, the Centers for Medicare & Medicaid Services (CMS) announced that it is reevaluating the amounts that will be paid under its Accelerated Payment Program and suspending its Advance Payment Program to Part B suppliers effective immediately. The agency made this announcement following the successful payment of over \$100 billion to health care providers and suppliers through these programs and in light of the \$175 billion recently appropriated for health care provider relief payments.

CMS had expanded these temporary loan programs to ensure providers and suppliers had the resources needed to combat the beginning stages of the 2019 Novel Coronavirus (COVID-19). Funding will continue to be available to hospitals and other health care providers on the front lines of the coronavirus response primarily from the [Provider Relief Fund](#). The Accelerated and Advance Payment (AAP) Programs are typically used to give providers emergency funding and address cash flow issues for providers and suppliers when there is disruption in claims submission or claims processing, including during a public health emergency or Presidentially-declared disaster.

Since expanding the AAP programs on March 28, 2020, CMS approved over 21,000 applications totaling \$59.6 billion in payments to Part A providers, which includes hospitals. For Part B suppliers, including doctors, non-physician practitioners and durable medical equipment suppliers, CMS approved almost 24,000 applications advancing \$40.4 billion in payments. The AAP programs are not a grant, and providers and suppliers are typically required to

pay back the funding within one year, or less, depending on provider or supplier type. Beginning today, CMS will not be accepting any new applications for the Advance Payment Program, and CMS will be reevaluating all pending and new applications for Accelerated Payments in light of historical direct payments made available through the Department of Health & Human Services' (HHS) Provider Relief Fund.

Significant additional funding will continue to be available to hospitals and other health care providers through other programs. Congress appropriated \$100 billion in the Coronavirus Aid, Relief, and Economic Security (CARES) Act (PL 116-136) and \$75 billion through the Paycheck Protection Program and Health Care Enhancement Act (PL 116-139) for health care providers. HHS is distributing this money through the Provider Relief Fund, and these payments do not need to be repaid.

The CARES Act Provider Relief Fund is being administered through HHS and has already released \$30 billion to providers and is in the process of releasing an additional \$20 billion, with more funding anticipated to be released soon. This funding will be used to support health care-related expenses or lost revenue attributable to the COVID-19 pandemic and to ensure uninsured Americans can get treatment for COVID-19.

For more information on the CARES Act Provider Relief Fund and how to apply, visit: hhs.gov/providerrelief.

Trump Administration Issues Second Round of Sweeping Changes to Support U.S. Healthcare System During COVID-19 Pandemic

At President Trump's direction, and building on its recent historic efforts to help the U.S. healthcare system manage the 2019 Novel Coronavirus (COVID-19) pandemic, on April 30, 2020, the Centers for Medicare & Medicaid Services, issued another round of sweeping regulatory waivers and rule changes to deliver expanded care to the nation's seniors and provide flexibility to the healthcare system as America reopens. These changes include making it easier for Medicare and Medicaid beneficiaries to get tested for COVID-19 and continuing CMS's efforts to further expand beneficiaries' access to telehealth services.

COVID-19: Nursing Home Reporting, Updated Telehealth Video, Pharmacies & Other Suppliers Can Enroll as Labs, IRF Flexibilities

- [New Guidance Available on Requirements for Notification of Confirmed and Suspected COVID-19 Cases Among Residents and Staff in Nursing Homes](#)
- [Telehealth Video: Medicare Coverage and Payment of Virtual Services](#)
- [Medicare Pharmacies and Other Suppliers May Temporarily Enroll as Independent Clinical Diagnostic Laboratories to Help Address COVID-19 Testing MLN Matters® Article](#)
- [COVID-19: IRF Flexibilities During the PHE](#)
- [COVID-19: IRF Interdisciplinary Team Meetings During the Pandemic](#)

New Guidance Available on Requirements for Notification of Confirmed and Suspected COVID-19 Cases Among Residents and Staff in Nursing Homes

Nursing homes are now required to report the first week of COVID-19 data to the Centers for Disease Control and Prevention (CDC) beginning May 8 but no later than May 17. For the first time, all 15,000 nursing homes will be reporting this data directly to the CDC through its reporting tool. This reporting requirement is the first action of its kind in the agency's history. On April 19, [CMS announced](#) the agency would be requiring facilities to report COVID-19 information to the CDC and to families. Within three weeks of that announcement, on April 30, CMS issued an [Interim Final Rule with Comment Period](#) with the new regulatory requirements. As nursing homes report this data to the CDC, we will be taking swift action and publicly posting this information so all Americans have access to accurate and timely information on COVID-19 in nursing homes.

CMS has a longstanding requirement for nursing homes to report cases of communicable diseases, such as COVID-19, to the appropriate state or local health department. This new requirement not only helps health departments intervene when needed but serves to provide awareness to the public (e.g., families) and surveillance for public health agencies and the CDC. The importance of ongoing transparency and information sharing has proven to be one of the keys to the battle against this pandemic. Building upon the successes of the Trump Administration prior to COVID-19, CMS has strongly supported transparency, such as the work done over the past several years to improve public access and understanding of nursing home inspection reports and expand the information available to consumers on Nursing Home Compare. The agency remains committed to greater transparency and plans to publicly release new data by the end of May. CMS will never stop working to give patients, residents, and families the clearest and most accurate information possible.

Telehealth Video: Medicare Coverage and Payment of Virtual Services

This updated [video](#) provides answers to common questions about the expanded Medicare telehealth services benefit under the 1135 waiver authority and Coronavirus Preparedness and Response Supplemental Appropriations Act.

Medicare Pharmacies and Other Suppliers May Temporarily Enroll as Independent Clinical Diagnostic Laboratories to Help Address COVID-19 Testing MLN Matters® Article

A new MLN Matters Special Edition Article SE20017 on [Medicare Pharmacies and Other Suppliers May Temporarily Enroll as Independent Clinical Diagnostic Laboratories to Help Address COVID-19 Testing](#) is available. Learn how to temporarily enroll to be an additional laboratory resource to meet the urgent need to increase COVID-19 testing capability.

COVID-19: IRF Flexibilities During the PHE

CMS is exercising regulatory flexibilities for Inpatient Rehabilitation Facilities (IRFs) during the COVID-19 Public Health Emergency (PHE) to waive the 60 percent rule.

We are also waiving IRF coverage and classification requirements if all of these criteria are satisfied:

- Patient is admitted to a freestanding IRF to alleviate acute care hospital bed capacity issues
- IRF is located in an area that is in Phase 1 or has not entered Phase 1; see [Guidelines for Opening Up America Again](#)

Add the following letters at the end of your unique hospital patient identification number (the number that identifies the patient's medical record in the IRF) to identify patients eligible for each waiver:

- D- 60 percent rule
- DS- Coverage and classification requirements
- DDS- Both 60 percent rule and coverage and classification requirements

For More Information:

- [COVID-19 Emergency Declaration Blanket Waivers for Health Care Providers](#): See page 10 for 60 percent rule
- [Interim Final Rule](#): Coverage and classification requirements

COVID-19: IRF Interdisciplinary Team Meetings During the Pandemic

CMS expects Inpatient Rehabilitation Facilities (IRFs) to hold in-person weekly interdisciplinary team meetings to discuss Medicare Part A fee-for-service patients. During the public health emergency, it may be safest to conduct meetings electronically. We will accept all appropriate forms of social distancing precautions.

CMS Releases Additional Waivers for Hospitals and Other Facilities

CMS continues to release waivers for the health care community that provide the flexibilities needed to take care of patients during the COVID-19 Public Health Emergency (PHE). CMS recently provided additional blanket waivers for the duration of the PHE that:

- Expand hospitals' ability to offer long-term care services ("swing beds")
- Waive distance requirements, market share, and bed requirements for Sole Community Hospitals
- Waive certain eligibility requirements for Medicare-Dependent, Small Rural Hospitals (MDHs)
- Update specific life safety code requirements for hospitals, hospice, and long-term care facilities

For more information, see [Emergency Declaration Blanket Waivers](#).

Price Transparency: Requirement to Post Cash Prices Online for COVID-19 Diagnostic Testing

The Coronavirus Aid, Relief, and Economic Security (CARES) Act includes a number of provisions to provide relief to the public from issues caused by the pandemic, including price transparency for COVID -19 testing.

Deadline Approaching: Notification Requirements of Confirmed and Suspected COVID-19 Cases Among Nursing Home Residents and Staff

On April 19, CMS announced the agency will be requiring facilities to report COVID-19 information to the CDC and to families. Within three weeks of that announcement, on April 30, CMS issued an [Interim Final Rule with Comment Period](#) with new regulatory requirements. With the new regulatory requirements, nursing homes are required to report the first week of data to the CDC beginning May 8 but no later than May 17. For the first time, all 15,000 nursing homes will be reporting this data directly to the CDC through its reporting tool.

In order to report, facilities must enroll in the CDC's National Healthcare Safety Network (NHSN). Information on how to enroll is available [here](#). As nursing homes report this data to the CDC, CMS will be taking swift action and publicly posting this information so all Americans have access to accurate and timely information on COVID-19 in nursing homes. More information on the CDC's NHSN COVID-19 module can be found [here](#).

CMS Releases Nursing Home Toolkit with Best Practices and Additional Resources

CMS released a new toolkit developed to aid nursing homes, Governors, states, departments of health, and other agencies who provide oversight and assistance to these facilities. These additional resources will help in the fight against the COVID-19 pandemic within nursing homes. The toolkit builds on previous actions taken by CMS, which provide a wide range of tools and guidance to states, healthcare providers and others during the public health emergency. The toolkit is comprised of best

practices from a variety of front line health care providers, Governors' COVID-19 task forces, associations and other organizations, and experts, and is intended to serve as a catalogue of resources dedicated to addressing the specific challenges facing nursing homes as they combat COVID-19.

[Press Release](#)

[Toolkit \(PDF\)](#)

Telephone Evaluation and Management Visits

The March 30 [Interim Final Rule with Comment Period](#) added coverage during the Public Health Emergency for audio-only telephone evaluation and management visits (CPT codes 99441, 99442, and 99443) retroactive to March 1. On April 30, a new Physician Fee Schedule was implemented increasing the payment rate for these codes. Medicare Administrative Contractors (MACs) will reprocess claims for those services that they previously denied and/or paid at the lower rate.

There are also a number of add on services (CPT codes 90785, 90833, 90836, 90838, 96160, 96161, 99354, 99355, and G0506) which Medicare may have denied during this Public Health Emergency. MACs will reprocess those claims for dates of service on or after March 1.

You do not need to do anything.

Hospitals: Physician Time Studies During the COVID-19 PHE

Hospitals that incur physician compensation costs must allocate those costs based on the percentage of total time spent furnishing:

- Part A services
- Part B services
- Non-Medicare allowable activities

Hospitals must submit physician allocation agreements annually as part of the cost report filing process. During the Public Health Emergency (PHE), any one of these time study options is acceptable:

- One week time study every 6 months (two weeks per year)
- Time studies completed in the cost report period prior to January 27, the PHE effective date (e.g. hospital with a 7/1/2019 -- 6/30/2020 cost reporting period, could use the time studies collected 7/1/2019 through 1/26/2020; no time studies needed for 1/27/2020 -- 6/30/2020)
- Time studies from the same period in CY 2019 (e.g., if unable to complete time studies during February through July 2020, use time studies completed February through July 2019)

For more information, see the [Provider Reimbursement Manual](#):

- Chapter 21, section 2182.3.E.3 - allocation agreements
- Chapter 23, section 2313.2.E and Chapter 21, section

See **SPECIAL**, page 17

Trump Administration Announces Call for Nominations for Nursing Home Commission

CMS announced a call for nominations for the new contractor-led Coronavirus Commission on Safety and Quality in Nursing Homes. The commission's work will build on the Trump Administration's long history of decisive actions to protect nursing home residents. The commission will conduct a comprehensive assessment of the overall response to the COVID-19 pandemic in nursing homes and will inform immediate and future actions to safeguard the health and quality of life for an especially vulnerable population of Americans.
