Version 5010 level II compliance: Do you know what to do?

Make sure you know how to meet version 5010 level II compliance

The version 5010 compliance deadline is less than 90 days away

All entities covered under the Health Insurance Portability and Accountability Act (HIPAA) must be ready to implement the version 5010 transaction standards by December 31, 2011. In order to meet this compliance deadline, you need to conduct both level I internal testing, and level II external testing of transactions.

Level I internal testing

Level I internal testing allows you to identify and address any potential issues that may arise in advance of testing with external business partners. If you have not yet done so, take action now to complete your internal testing as soon as possible. By now, you should have completed level I internal testing, and begun level II external testing.

Level II external testing

For level II external testing, you should identify the business partners you currently conduct transactions with, and create a schedule and timeline for external testing with each partner. If you trade with a large number of business partners, identify priority partners to conduct testing with first.

To meet level II compliance, business partners that should be included in external testing include:

- Billing services
- Clearinghouses
- Pharmacies
- Entities responsible for coverage and benefit determinations
- Payers

To ensure a smooth transition during level II external testing, you should first test the transactions you currently use on a daily basis, such as:

- Claims
- Eligibility determinations
- Remittances
- Referral authorizations

After testing your daily transactions, you are ready to test all remaining transactions to ensure that you are fully compliant for level II external testing.

Keep up to date on version 5010 and ICD-10

Visit the *ICD-10 website* for the latest news and resources to help you prepare, and to download and share the implementation *widget* today.

Reducing improper payments, fighting fraud, and curbing waste and abuse under the Affordable Care Act

Final rule released for the Medicaid recovery audit program

On Wednesday, September 14, 2011, the Department of Health and Human Services (HHS) released its final rule for the Medicaid recovery audit program, a key part of the Administration's initiatives to curb waste, fraud and abuse. Created by the Affordable Care Act, the Medicaid recovery audit program will help states identify and recover improper Medicaid payments. It will be largely self-funded, paying independent auditors a contingency fee out of any improper payments they recover that took place in the previous three years.

The recovery audit contractors (RACs) detect and correct past improper payments. RACs review claims after payments have been made, using both simple, automated review processes and detailed reviews that include medical records. RACs can only go three years back from the date the claim was paid, and are required to employ a staff consisting of nurses, therapists, certified coders, and a physician. Under these expansions, RACs will help identify and recover over and underpayments to providers across Medicare and Medicaid for the first time.

New resources to fight fraud

The Affordable Care Act provides an additional $350 million over 10 years and an annual inflation adjustment to ramp up anti-fraud efforts, including increasing scrutiny of claims before they've been paid, investments in sophisticated data analytics, and more "feet on the street" law enforcement agents and others to fight fraud in the health care system.

These efforts build on our recently awarded predictive modeling contract under which the Centers for Medicare & Medicaid Services (CMS) is using the kind of technology used by credit card companies to stop fraud. Since June 30 of this year CMS has been using this technology to help identify potentially fraudulent Medicare claims and uncover fraudulent providers and suppliers, flagging both for investigation and referrals to law enforcement. This new tool allows CMS for the first time to use real-time data to spot suspect claims and providers and take action to stop fraudulent payments before they are paid.

These efforts build on the many aspects of the Affordable Care Act that are currently working to bring down waste, fraud and abuse in the health care system. To learn about the many accomplishments the new tools have produced in preventing and fighting waste, fraud and abuse in these programs, see *http://www.healthcare.gov/news/factsheets/fraud09142011a.html*.

The press release is available at *https://www.CMS.gov/apps/media/press/release.asp?Counter=4084*.

Medicare 2012 open enrollment drug and health plan data now live

Online "Plan Finder" offers unbiased resource to review plan options

In advance of the new, earlier annual enrollment period, people with Medicare were able to begin reviewing plan benefit and cost information on Saturday, October 1, 2011. The Centers for Medicare & Medicaid Services (CMS) launched access to its popular Web-based "Medicare Plan Finder" that allows beneficiaries, their families, trusted representatives, and senior program advocates to look at all local drug and health plan options that are available for the 2012 benefit year.

The annual enrollment period begins earlier this year, on Saturday, October 15, and runs through Wednesday, December 7. People with Medicare will have seven weeks to review Medicare Advantage and Part D prescription drug coverage benefits and plan options, and choose the option that best meets their unique needs. The earlier open enrollment period also ensures that Medicare has enough time to process plan choices so that coverage begins without interruption on Sunday, January 1, 2012.

People can use the "Plan Finder" – available at *www.Medicare.gov* – by searching their home ZIP code for Medicare Advantage (Part C) and Prescription Drug (Part D) plans available in their area.

The full text of this excerpted press release can be found on the CMS website at *http://www.CMS.gov/apps/media/press/release.asp?Counter=4104*.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Discontinuance of verification of foreign born status in provider enrollment

Effective immediately, providers are no longer required to provide information, which verifies the legalized status of enrollment applicants including those individuals referenced in any ownership related information. This is part of an ongoing Centers for Medicare & Medicaid Services (CMS) review of current enrollment requirements to eliminate unnecessary burden on providers as well as delays in the enrollment process. The instructions in *Program Integrity Manual* Chapter 10, Section 5.7.2 will be updated in the near future.

Implementation of Pay.gov application fee collection process through PECOS

Provider types affected

This *Medicare Learning Network* (MLN) Matters® special edition article is intended for all providers and suppliers, (except physicians and non-physician practitioners who are not required to pay an application fee), who are initially enrolling in Medicare, adding a practice location, or revalidating their enrollment information, and do so by submitting one of the following paper Medicare enrollment applications or the associated Internet-based Provider Enrollment, Chain and Ownership System (PECOS) enrollment applications:

- CMS 855A – Medicare enrollment application for institutional providers;
- CMS 855B – Medicare enrollment application for clinics, group practices; and certain other suppliers; and
- CMS 855S – Medicare enrollment application for durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) suppliers.

Provider action needed

Stop – impact to you

Currently, providers or suppliers use Pay.gov to make Medicare application fee payments electronically. This article announces a change to this website address to access Pay.gov on the Internet.

Caution – what you need to know

The changes outlined below have no effect on the Pay.gov payment collection process. Provider and suppliers will continue to make payment for the application fees to Pay.gov on the Internet. The Centers for Medicare & Medicaid Services (CMS) is simply revising the way providers access Pay.gov to improve the efficiency of the application fee payment, collection, and accounting process.

Go – what you need to do

Use the following address to make your application fee payments: *https://pecos.cms.hhs.gov/pecos/feePaymentWelcome.do*. Please update any bookmarks you may have in place to the new address.

Background

In February 2011, CMS published a final rule, CMS-6028-FC, with provisions related to the submission of application fees as part of the provider enrollment process. An application fee and/or hardship exception must be submitted with any application received from institutional providers initially enrolling in Medicare, adding a practice location, or revalidating their enrollment on or after March 25, 2011.

Changes for making Medicare application payments

Internet based PECOS online application submitters

For those who submit applications online via the PECOS website (also referred to as PECOS Provider Interface (or PECOS PI)), you will no longer have to separately access Pay.gov first to make your application fee payments. Instead, as you proceed through the Internet based PECOS application process, if a fee is required, you will be prompted to submit a payment. You will be automatically transferred from the Internet based PECOS application site to the Pay.gov website where you will make your payment by ACH credit and debit card.

PECOS PI submitters will be automatically transferred to Pay.gov to pay the application fee.

Once your payment transaction is complete, you will be automatically returned to the PECOS website to complete the remaining part of your application. PECOS will track the collection transaction from Pay.gov and will update payment status, allowing your application to be processed.

855 paper application submitters

For providers who continue to use the 855 paper enrollment application, you will now access Pay.gov

continued on next page

Pay.gov...*continued*

using the following URL: *https://pecos.cms.hhs.gov/pecos/feePaymentWelcome.do*.

Complete the Medicare application fee form and click the 'PAY NOW' button. You will be redirected to enter and submit payment collection information. At the conclusion of the collection process, you will receive a receipt indicating the status of your payment. Please print a copy for your records. We strongly recommend that you attach this receipt to the completed CMS-855 application submitted to your Medicare contractor.

Paper application submitters-interim procedures

Through December 31, 2011, CMS will continue to route providers and suppliers, who access Pay.gov directly using the Pay.gov form set up process, to the correct URL, *https://pecos.cms.hhs.gov/pecos/feePaymentWelcome.do*,

After December 31, 2011, to access Pay.gov, you will be required use the URL *https://pecos.cms.hhs.gov/pecos/feePaymentWelcome.do*.

Additional information

More information about the enrollment process, the required fees, and the hardship exceptions process can be found in the *MLN* Matters® Article MM7350, available at *http://www.cms.gov/MLNMattersArticles/downloads/MM7350.pdf*.

More information on revalidation can be found in SE1126, which is available at *http://www.cms.gov/MLNMattersArticles/downloads/SE1126.pdf* .

If you have any questions, please contact your Medicare contractor at their toll-free number, which may be found at *http://www.cms.gov/MLNProducts/downloads/CallCenterTollNumDirectory.zip*.

Provider types affected

This article is for physicians, providers, and suppliers who must respond to additional documentation requests (ADRs) from Medicare administrative contractors (A/B MACs) or durable medical equipment Medicare administrative contractors (DME MACs) for services provided to Medicare beneficiaries.

What you need to know

Change request (CR) 7254, from which this article is taken, makes changes to the Medicare systems that allow A/B MACs and DME MACs to include, on additional documentation request (ADR) letters, information about the electronic submission of medical documentation (esMD) pilot.

Background

CR 7254, from which this article is taken, announces several changes to the Medicare systems that enable Medicare review contractors, participating in the esMD pilot, to include on ADR letters additional information necessary for esMD.

Specifically, these will allow MACs to include in each ADR:

- A statement about how providers can get more information about submitting medical documentation via the esMD mechanism
- A documentation case ID number that may facilitate tracking of submitted documents.

Additional information

You can find the official instruction, CR 7254, issued to your A/B MAC or DME MAC by visiting *http://www.cms.gov/Transmittals/downloads/R958OTN.pdf*.

You can learn more about the esMD pilot by going to *http://www.cms.gov/ESMD/*. In addition, MLN Matters® article SE1110, available at *http://www.cms.gov/MLNMattersArticles/downloads/SE1110.pdf,* provides more details on the esMD initiative.

If you have any questions, contact your A/B MAC or DME MAC at their toll-free number, which may be found at *http://www.cms.gov/MLNProducts/downloads/CallCenterTollNumDirectory.zip*.

Get ready for DMEPOS competitive bidding

The Medicare durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) competitive bidding program round 2 and the national mail-order competitions are coming soon.

Fall 2011

- CMS announces bidding schedule
- CMS begins bidder education program
- Bidder registration period to obtain user ID and passwords begins

Winter 2012

- Bidding begins

If you are a supplier interested in bidding, prepare now – don't wait.

- **Update your contact information:** The following contact information in your enrollment file at the national supplier clearinghouse (NSC) must be up to date before you register to bid. If your file is not current, you may experience delays and/or be unable to register and bid. DMEPOS suppliers should review and update:
  - The name, Social Security number, and date of birth for all authorized official(s) (if you have only one authorized official listed on your enrollment file, consider adding one or more authorized officials to help with registration and bidding); and
  - The correspondence address.

  DMEPOS suppliers can update their enrollment via the internet-based Provider Enrollment, Chain and Ownership System (PECOS) or by using the July 11, 2011, version of the CMS-855S enrollment form. Suppliers not currently using PECOS can learn more about this system by accessing the PECOS website (*www.cms.gov/MEDICAREPROVIDERSUPENROLL/*) or reviewing the PECOS fact sheet at *www.cms.gov/MLNProducts/downloads/MedEnroll_PECOS_DMEPOS_FactSheet_ICN904283.pdf*. Information and instructions on how to submit a change of information via the hardcopy CMS-855S enrollment form may be found on the NSC website (*www.palmettogba.com/nsc*) and by following this path: Supplier Enrollment/Change of Information/Change of Information Guide.
- **Get licensed:** Contracts are only awarded to suppliers that have all required state licenses at the time the bid is submitted. Therefore, before you submit a bid for a product category in a competitive bidding area (CBA), you must have all required state licenses for that product category on file with the NSC. Every location must be licensed in each state in which it provides services. If you have only one location and are bidding in a CBA that includes more than one state, you must have all required licenses for every state in that CBA. If you have more than one location and are bidding in a CBA that includes more than one state, your company must have all required licenses for the product category for every state in that CBA. It is **very important** that you make sure that current versions of all required licenses are in your enrollment file with the NSC **before** you bid. If any required licenses are expired or missing from your enrollment file, we can reject your bid. Suppliers bidding in the national mail-order competition must have the applicable licenses for all 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, and American Samoa.
- **Get accredited:** Suppliers must be accredited for all items in a product category in order to submit a bid for that product category. If you are interested in bidding for a product category and are not currently accredited for that product category, take action now to get accredited for that product category. Your accreditation organization will need to report any accreditation updates to the NSC. CMS cannot contract with suppliers that are not accredited by a CMS-approved accreditation organization.

Further information on the DMEPOS accreditation requirements along with a list of the accreditation organizations and those professionals and other persons exempted from accreditation may be found at the CMS website: *www.cms.gov/MedicareProviderSupEnroll/01_Overview.asp*.

The competitive bidding implementation contractor (CBIC) is the official information source for bidders. Stay informed – visit the CBIC website at *www.dmecompetitivebid.com* to subscribe to email updates and for the latest information on the DMEPOS competitive bidding program.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Are you licensed for DMEPOS competitive bidding?

The Medicare durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS) competitive bidding program round 2 and national mail-order competitions are coming soon. If you plan to bid, take action now to make sure you have all required licensures for the competitive bidding areas and product categories for which you plan to bid. You must have current versions of all required licenses on file with the national supplier clearinghouse (NSC) at the time of bidding or we can reject your bid.

The NSC has recently updated its DMEPOS licensure database. This database contains the licensure requirements for each state and territory and can assist you in verifying that you meet current licensure requirements. The updated database contains a search tool that is more interactive and is arranged by product specialty rather than supplier type. The database also contains contact information for licensing agencies in each state and territory.

Licensure requirements vary from state to state and locality to locality. The NSC licensure directory provides a good starting point to help you identify the licenses you need. State licensure requirements change periodically and have many exceptions, so the NSC's database serves only as a guide. It remains your responsibility to ensure you are in compliance with the most current state and federal laws and regulations.

The new and improved NSC licensure database can found on the NSC website at *http://www.PalmettoGBA.com/NSC* (select the "Licensure Database" in the Self Service Tools section of the home page). You can verify the licenses you currently have on file with the NSC via the Internet-based Provider Enrollment, Chain, and Ownership System (PECOS) at *https://pecos.cms.hhs.gov/pecos/login.do*.

For more information about the competitive bidding program, including a fact sheet about the licensure requirements for bidding suppliers, please visit the competitive bidding implementation contractor website at *www.DMECompetitiveBid.com*.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Quarterly provider update

The Centers for Medicare & Medicaid Services (CMS) publishes the quarterly provider update (QPU) at the beginning of each quarter to inform the public about:

- Regulations and major policies currently under development during this quarter.
- Regulations and major policies completed or canceled.
- New/revised manual instructions.

CMS regulations establish or modify the way CMS administers the Medicare program. These regulations impact providers and suppliers providing services to Medicare beneficiaries. Providers may access the QPU by going to the CMS website at *http://www.cms.gov/QuarterlyProviderUpdates/.* Providers may join the CMS-QPU electronic mail to ensure timely notification of all additions to the QPU.

Prohibition on balance billing qualified Medicare beneficiaries

Provider types affected

All Medicare physicians, providers and suppliers who submit claims to Medicare for services and supplies provided to qualified Medicare beneficiaries (QMBs) are affected. This includes providers of services to enrollees of Medicare Advantage plans.

What you need to know

Stop – impact to you

This special edition *MLN Matters*® article provides guidance from the Centers for Medicare & Medicaid Services (CMS) to Medicare providers serving qualified Medicare beneficiaries (QMBs). **All Medicare providers are reminded that they may not bill QMBs for Medicare cost-sharing.**

Caution – what you need to know

All Medicare physicians, providers, and suppliers who offer services and supplies to QMBs must be aware that they may not bill QMBs for Medicare cost-sharing. This includes deductible, coinsurance, and copayments, known as "balance billing." Section 1902(n)(3)(B) 4714 of the Social Security Act prohibits Medicare providers from balance billing QMBs for Medicare cost-sharing. QMBs have no legal obligation to make further payment to a provider or Medicare managed care plan for Part A or Part B cost sharing. Providers who inappropriately bill QMBs for Medicare cost-sharing are subject to sanctions.

Go – what you need to do

Refer to the *Background* and *Additional information* sections of this article for further details and resources about this guidance. Please ensure that you and your staffs are aware of the current balance billing law and policies regarding QMBs. Visit the state Medicaid agency websites of the state in which you practice to learn how to submit claims if you are not currently submitting claims to a state.

Background

This article provides CMS guidance to Medicare providers to help them avoid inappropriately billing QMBs for Medicare cost-sharing, including deductible, coinsurance, and copayments. This is known as "balance billing."

Balance billing of QMBs is prohibited by federal law

Under current law, Medicare providers cannot balance bill a QMB. Section 1902(n)(3)(B) 4714 of the Social Security Act prohibits Medicare providers from balance billing QMBs for Medicare cost-sharing. (Please note, this section of the Act is available at *http://www.ssa.gov/OP_Home/ssact/title19/1902.htm*.)

Specifically, the statute provides that the Medicare payment and any Medicaid payment are considered payment in full to the provider for services rendered to a QMB.

QMBs have no legal obligation to make further payment to a provider or Medicare managed care plan for Part A or Part B cost sharing. Providers who balance bill QMB patients may be subject to sanctions based on Medicare provider requirements established in Sections 1902(n)(3)(C) and 1905(p)(3) of the Social Security Act. Medicare providers who violate these billing restrictions are violating their Medicare provider agreement.

Please note that the statute referenced above supersedes Section 3490.14 of the *State Medicaid Manual*, which is no longer in effect, and therefore, may be causing confusion about QMB billing.

QMBs and benefits

QMBs are persons who are entitled to Medicare Part A and are eligible for Medicare Part B; have incomes below 100 percent of the federal poverty level; and have been determined to be eligible for QMB status by their state Medicaid agency.

- Medicaid pays the Medicare Part A and B premiums, deductibles, coinsurance and copayments for QMBs.
- At the state's discretion, Medicaid may also pay Part C Medicare Advantage premiums for joining a Medicare Advantage plan that covers Medicare Part A and B benefits and mandatory supplemental benefits.
- Regardless of whether the state Medicaid agency opts to pay the Part C premium, the QMB is not liable for any coinsurance or deductibles for Part C benefits.

continued on next page

Beneficiaries...*continued*

Ways to improve the claims process

Effective communications between you and state Medicaid agencies can improve the claims process for all parties involved. Therefore, CMS suggests that you take the following four actions to improve communications with state Medicaid agencies and better understand the billing process for services provided to QMB beneficiaries:

1. Determine if the state in which you operate has electronic crossover processes with the Medicare coordination of benefits contractor (COBC) in place or if direct submission to the state Medicaid agency is required or available. Nearly all states participate in the Medicare crossover process. It may just be that particular QMBs need to be added to the eligibility exchange between given states and Medicare. If a claim is automatically crossed over to another payer, such as Medicaid, it is customarily noted on the Medicare remittance advice.
2. Recognize that you must meet any state-imposed requirements and may need to complete the provider registration process to be entered into the state payment system.
3. Understand the specific requirements for provider registration for the state(s) in which you work.
4. Contact the state Medicaid agency directly to determine the process you need to follow to begin submitting claims and receiving payment.

QMB eligibility and benefits

Dual eligibility	Eligibility criteria	Benefits
Qualified Medicare beneficiary (QMB only)	• Income cannot exceed 100% of the federal poverty level (FPL) • Resources cannot exceed $6,600 for a single individual or $9,910 for an individual living with a spouse and no other dependents	• Entitled to Medicare Part A • Eligible for Medicaid payment of Medicare Part B premiums, deductibles, coinsurance and copays (except for Part D)
QMB plus	• Meets all of the standards for QMB eligibility as described above, but also meets the financial criteria for full Medicaid coverage • Individuals often qualify for full Medicaid benefits by meeting the medically needy standards, or through spending down excess income to the medically needy level.	• Entitle to all benefits available to QMB, as well as all benefits available under the state plan to a fully eligible Medicaid recipient

For more information about dual eligible categories and benefits, please visit *http://www.medicare.gov/Publications/Pubs/pdf/10126.pdf*.

Additional information

For more information about QMBs and other individuals who are dually eligible to receive Medicare and Medicaid benefits, please refer to the *Medicare Learning Network®* publication titled *Medicaid Coverage of Medicare Beneficiaries (Dual Eligibles)*, which is available at *http://www.cms.gov/mlnproducts/downloads/medicare_beneficiaries_dual_eligibles_at_a_glance.pdf*.

For general Medicaid information, please visit the Medicaid Web page at *http://www.cms.gov/home/medicaid.asp*.

Incentive Programs

New information about the PCIP program's special incentive remittance

Payments under the primary care incentive payment (PCIP) program are often electronic, followed-up with a paper report called the special incentive remittance. The remittance is detailed, identifying all of the PCIP-eligible services for the previous quarter from which the Centers for Medicare & Medicaid Services (CMS) calculated the PCIP bonus payment. In 2012, the remittance will be modified to include a summary statement, sorted by practitioner and incentive. Stay tuned for an upcoming change request (CR) for more information.

Contact FCSO if you feel you've been incorrectly identified as a PCIP practitioner

If you feel that you have been incorrectly identified as a Primary Care Incentive Payment Program (PCIP) eligible practitioner, you may contact First Coast Service Options (FCSO) and request a review of your prior claims history that resulted in the eligibility determination. If it is determined that an error was made in your claims history, FCSO will accept the return of your PCIP payment. Refer to *MLN Matters* article MM7060 at *http://www.CMS.gov/MLNMattersArticles/downloads/MM7060.pdf* for a list of eligibility requirements.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Get motivated by Medicare …

Find out about provider incentive programs

- e-Prescribing (eRx)
- Electronic Health Records (EHR)
- Physician Quality Reporting System
- Primary Care Incentive Program (PCIP)

Available at *http://medicare.fcso.com/Landing/191460.asp*

Reminder: November 1, 2011, is deadline to request a Medicare eRx incentive program hardship exemption for 2012 payment adjustment

The Centers for Medicare & Medicaid Services (CMS) would like to remind eligible professionals and group practices participating in the Medicare electronic prescribing (eRx) incentive program that the deadline to request a hardship exemption for the 2012 eRx payment adjustment is November 1, 2011.

Eligible professionals and group practices should determine if they are subject to the 2012 eRx payment adjustment by reviewing the *MLN Article SE1107*. If you believe that you may be subject to the 2012 eRx payment adjustment, you should determine if you meet any of the hardship exemption categories specified by CMS in the 2011 Medicare electronic prescribing (eRx) incentive program final rule.

In addition, a *Quick Reference Guide* is available to help you understand the changes that the eRx final rule made to the 2011 Medicare eRx incentive program. As a result of changes to the program, eligible professionals and group practices have until November 1, 2011, to submit a significant hardship exemption request and rationale.

Please note, to be considered for an exemption under the significant hardship exemption category "Eligible professionals who register to participate in the Medicare or Medicaid electronic health record (EHR) incentive programs and adopt certified EHR technology," an eligible professional must:

1. Have registered for either the Medicare or Medicaid EHR incentive program (for instructions on how to register for one of the EHR incentive programs, we refer readers to the registration and attestation page of the EHR incentive programs section of the CMS website at *http://www.cms.gov/EHRIncentivePrograms/20_RegistrationandAttestation.asp#TopOfPage*); and
2. Provide identifying information as to the certified EHR technology (as defined at 42 CFR 495.4 and 45 CFR 170.102) that has been adopted for use no later than October 1, 2011. Please note that, in order to qualify for an exemption to the 2012 eRx payment adjustment under this significant hardship exemption category, it is not necessary that an eligible professional receive an incentive payment under the Medicare or Medicaid EHR incentive program.

Eligible professionals wishing to register for the Medicaid EHR incentive program in states that have not yet launched their respective programs may initiate the registration process at the CMS registration and attestation system, and obtain a registration number but will not be able to successfully complete registration. If a state has not launched its Medicaid EHR incentive program, the state name will not appear in the drop-down menu for eligible professionals to choose from. However, a registration number is assigned even if registration is not successfully completed.

In order to initiate registration for the Medicaid EHR incentive program, please visit *https://ehrincentives.cms.gov/hitech/login.action* and follow the instructions to begin the registration process. Obtaining a CMS EHR incentive programs registration number, even if the registration is not successfully completed, suffices for the purposes of applying for a significant hardship exemption for the 2012 Medicare eRx payment adjustment.

To request an exemption, individual eligible professionals must submit their hardship exemption requests through the *Quality Communications Support Page* and group practices participating under the group practice reporting option (GPRO) must submit hardship exemption requests via a letter to CMS.

Please remember that CMS will review these requests on a case-by-case basis. All decisions on significant hardship exemption requests will be final.

For additional information and resources, please visit *www.cms.gov/erxincentive* on the CMS website.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Materials from 'Medicare & Medicaid EHR Incentive Program: Understanding Meaningful Use' national provider call now available

The Centers for Medicare & Medicaid Services (CMS) hosted a national provider call on Thursday, August 18, to discuss the meaningful use requirements of the electronic health record (EHR) incentive programs. The presentation, call transcript, and the audio recording of the call are now available. Don't miss this opportunity to hear from CMS experts on this important topic.

The agenda included:

- Defining "meaningful use"
- The requirements for stage 1 of meaningful use (2011 and 2012)
- Attestation for meaningful use
- Goals of the meaningful use objectives specification sheets
    1. *Stage 1 EHR Meaningful Use Specification Sheets for Eligible Professionals*
    2. *Stage 1 EHR Meaningful Use Specification Sheets for Eligible Hospitals*
- Question and answer session

All materials from this call can be found on the CMS EHR website on the Educational Materials page at *http://www.CMS.gov/EHRIncentivePrograms/Downloads/UnderstandingMeaningfulUse.zip*.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Materials from September 9, 'Medicare and Medicaid EHR Incentive Programs: Registration and Attestation for Eligible Professionals' call available

The Centers for Medicare & Medicaid Services (CMS) hosted a national provider call on Friday, September 9, 2011, on the topic of *"Registration and Attestation for Medicare and Medicaid EHR Incentive Programs for Eligible Professionals"*, including:

- Path to payment
- Highlights of registration and attestation processes
- Third party proxy
- Troubleshooting
- Helpful resources
- Question and answer session

The presentation, transcript, and audio recording from this call and other selected calls can now be found under the "Presentations for Providers" section on the *Educational Materials page* of the CMS electronic health record (EHR) website. Please refer to the transcript for clarifications to the audio recording for the Friday, September 9 call.

Want more information about the EHR incentive programs? Make sure to visit the *Medicare and Medicaid EHR Incentive Programs website* for the latest news and updates on the EHR Incentive Programs.

Source: CMS PERL 201110-08

Medicare EHR incentive program: October 3 was the last day for eligible professionals to begin 90-day reporting period for 2011

The last day that eligible professionals (EPs) could begin their 90-day reporting period in calendar year (CY) 2011 for the Medicare electronic health record (EHR) incentive program was Monday, October 3, 2011. For EPs, that means they must have begun their consecutive 90-day reporting period by Monday, October 3, 2011, in order to attest to meeting meaningful use and be eligible to receive an incentive payment for CY 2011.

For EPs who have already completed their reporting period, Centers for Medicare & Medicaid Services (CMS) has a number of tools available to help prepare for attestation. EPs can use the *CMS Eligible Professional Attestation Worksheet* to record their meaningful use measures to have as a reference when attesting for the Medicare EHR incentive program in the Web-based *Registration and Attestation System* registration and attestation system. The *Meaningful Use Attestation Calculator* and *Attestation User Guide for Eligible Professionals* can also help EPs to successfully attest to meeting meaningful use.

Looking ahead

Take a look at all of the other important dates that are coming up by visiting the *CMS Medicare and Medicaid EHR Incentive Programs Milestone Timeline*, or reviewing the "Important Dates" section of the *EHR Incentive Programs' Overview* page.

Want more information about the EHR incentive programs?

Make sure to visit the *CMS EHR Incentive Programs website* for the latest news and updates.

Your feedback matters

To ensure that our website meets the needs of our provider community, we carefully analyze your feedback and implement changes to better meet your needs. Discover the results of your feedback on our Website highlights page at *http://medicare.fcso.com/Feedback/201743.asp* . You'll find the latest enhancements to our provider websites and find out how you can share your thoughts and ideas with FCSO's Web team.

This section of *Medicare A Connection* features summaries of new and revised local coverage determinations (LCDs) developed as a result of either local medical review or comprehensive data analysis initiatives. These initiatives are designed to ensure the appropriateness of medical care and to make sure that the Medicare administrative contractor (MAC) jurisdiction 9 (J9) Part A LCDs and review guidelines are consistent with accepted standards of medical practice.

Refer to our LCDs/Medical Coverage Web page at *http://medicare.fcso.com/Landing/139800.asp* for full-text LCDs, including final LCDs, draft LCDs available for comment, LCD statuses, and LCD comment/response summaries.

Effective and notice dates

Effective dates are provided in each LCD, and are based on the date services are furnished unless otherwise noted in the LCD. Medicare contractors are required to offer a 45-day notice period for LCDs; the date the LCD is posted to the website is considered the notice date.

Contents

Revisions to LCDs
A61885: Vagal nerve stimulation (VNS) for intractable depression 15

Advance beneficiary notice

- **Modifier GZ** must be used when providers, physicians, practitioners, or suppliers want to indicate that they expect that Medicare will deny an item or service as not reasonable and necessary and they have not had an advance beneficiary notification (ABN) signed by the beneficiary. **Note:** Line items submitted with the modifier GZ will be automatically denied and will not be subject to complex medical review.
- **Modifier GA** must be used when providers, physicians, practitioners, or suppliers want to indicate that they expect that Medicare will deny a service as not reasonable and necessary and they **do have** on file an ABN signed by the beneficiary.
- All claims not meeting medical necessity of a local coverage determination (LCD) must append the billed service with **modifier GA or GZ.**

Revisions to LCDs

A61885: Vagal nerve stimulation (VNS) for intractable depression – revision to the LCD coding guidelines

LCD ID number: L29003 (Florida)
LCD ID number: L29035 (Puerto Rico/U.S. Virgin Islands)

The local coverage determination (LCD) "coding guidelines" attachment for vagal nerve stimulation (VNS) for intractable depression was most recently revised on January 1, 2011. Since that time, based on the Centers for Medicare & Medicaid Services (CMS) change request 7545, transmittal 2296, dated September 2, 2011, for the "October 2011 Update of the Hospital Outpatient Prospective Payment System (OPPS)," the following verbiage was added to the "coding guidelines" attachment of the LCD:

Effective for services performed **on or after January 1, 2011**, *CPT* code *64569* (*Revision or replacement of cranial nerve [e.g., vagus nerve] neurostimulator electrode array, including connection to existing pulse generator*) was added as an appropriate procedure for device code C1778 (Lead, neurostimulator [implantable]) because the procedure may be appropriately reported on the same claim with the device code.

Effective date

This revision to the LCD "coding guidelines" attachment is effective for claims processed **on or after October 1, 2011,** for dates of service **on or after January 1, 2011**. First Coast Service Options Inc. (FCSO) LCDs are available through the CMS Medicare Coverage Database at *http://www.cms.gov/medicare-coverage-database/*.

Coding guidelines for an LCD (when present) may be found by selecting "LCD Attachments" in the "Jump to Section…" drop-down menu at the top of the LCD page. For LCDs with a future effective date, select the "Display Future Effective Documents" link at the top of the list of LCDs page.

Get news about LCDs delivered to your inbox

To receive quick, automatic notification when new and revised LCDs are posted to the website, subscribe to the FCSO *eNews* mailing list. Simply go to *http://medicare.fcso.com/Header/137525.asp*, enter your email address and select the subscription option that best meets your needs.

CARC, RARC, MREP and PC Print update

Provider types affected

Physicians, providers and suppliers who bill Medicare contractors (fiscal intermediaries (FIs), regional home health intermediaries (RHHIs), Medicare carriers, A/B Medicare administrative contractors (A/B MACs) and durable medical equipment Medicare administrative contractors (DME MACs)) for services provided to Medicare beneficiaries are affected.

Provider action needed

Change request (CR) 7514, from which this article is taken, announces the latest update of claim adjustment reason codes (CARC) and remittance advice remark codes (RARCs) that are effective on October 1, 2011, for Medicare. It also instructs certain Medicare contractors to update Medicare Remit Easy Print (MREP) and PC Print software. Be sure your billing staffs are aware of these changes.

Background

The reason and remark code sets must be used to report payment adjustments in remittance advice transactions. The reason codes are also used in some coordination of benefits (COB) transactions. A national code maintenance committee maintains the CARCs. The CARC list is updated three times a year in early March, July, and November. The Centers for Medicare & Medicaid Services (CMS) maintains the RARC list, which is used by all payers. The RARC list is also updated three times a year in early March, July, and November.

Both code lists are posted on the Washington Publishing Company (WPC) website, available at *http://www.wpc-edi.com/Codes*. The lists at the end of this article summarize the latest changes to these code lists, as announced in CR 7514.

Additional information

If you use the MREP and/or PC Print software, be sure to obtain an updated copy once it is available.

The official instruction, CR 7514, issued to your FI, RHHI, carrier, A/B MAC, and DME MAC regarding this change, may be viewed at *http://www.cms.gov/Transmittals/downloads/R2304CP.pdf*.

If you have any questions, please contact your FI, RHHI, carrier, A/B MAC, or DME MAC, at their toll-free number, which may be found at *http://www.cms.gov/MLNProducts/downloads/CallCenterTollNumDirectory.zip*.

CR 7514 changes

New codes – CARC

Code	Current narrative	Effective date
237	Legislated/regulatory penalty. At least one remark code must be provided (may be comprised of either the NCPDP reject reason code, or remittance advice remark code that is not an ALERT.)	6/5/2011

Modified codes – CARC

- None

Deactivated codes – CARC

- None

New codes – RARC

Code	Current narrative	Medicare initiated
N544	Alert: Although this was paid, you have billed with a referring/ordering provider that does not match our system record. Unless corrected, this will not be paid in the future.	Yes
N545	Payment reduced based on status as an unsuccessful eprescriber per the electronic prescribing (eRx) incentive program.	Yes
N546	Payment represents a previous reduction based on the electronic prescribing (eRx) incentive program.	Yes

It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations and other interpretive materials for a full and accurate statement of their contents.

Claim status category and claim status codes update

Provider types affected

This article is for all physicians, providers, and suppliers submitting claims to Medicare contractors (fiscal intermediaries (FIs), regional home health intermediaries (RHHIs), Part A/B Medicare administrative contractors (A/B MACs), Medicare carriers, and durable medical equipment (DME) MACs) for services provided to Medicare beneficiaries.

Provider action needed

This article, based on change request (CR) 7585, explains that the claim status and claim status category codes for use by Medicare contractors with the Health Care Claim Status Request and Response ASC X12N 276/277 and the Health Care Claim Acknowledgement ASC X12N 277 are updated three times per year at the committee meeting. These meetings are held in the January/February time frame, again in June and finally in late September or early October, in conjunction with the accredited standards committee (ASC) X12 meetings.

The committee has decided to allow the industry six months for implementation of newly added or changed codes. Medicare contractors will begin using the current codes posted at *http://www.wpc-edi.com/codes*, on or about November 1, 2011. Included in the code lists are specific details, including the date when a code was added, changed, or deleted. All providers are reminded to ensure that their billing staffs are aware of the updated codes and the timeframe for implementations.

Background

The Health Insurance Portability and Accountability Act (HIPAA) requires all health care benefit payers to use only claim status category codes and claim status codes approved by the national code maintenance committee in the X12 276/277 Health Care Claim Status Request and Response format adopted as the standard for national use (004010X093A1). These codes explain the status of submitted claims. Proprietary codes may not be used in the X12 276/277 to report claim status.

Additional information

The official instruction, CR 7585, issued to your Medicare contractors (FI, RHHI, A/B MAC, DME MAC and carrier) regarding this change, may be viewed at *http://www.cms.gov/Transmittals/downloads/R2314CP.pdf*.

If you have any questions, please contact your Medicare contractor at their toll-free number, which may be found at *http://www.cms.gov/MLNProducts/downloads/CallCenterTollNumDirectory.zip*.

Important update regarding 5010/D.0 implementation – act now

Provider types affected

This *MLN* Matters® special edition article is intended for all physicians, providers, and suppliers who bill Medicare contractors (carriers, fiscal intermediaries (FIs), Medicare administrative contractors (A/B MACs), home health and hospice MACs (HH+H MACs), and durable medical equipment MACs (DME MACs)) for services provided to Medicare beneficiaries.

Provider action needed

Stop – impact to you

You and your billing and software vendors must be ready to begin processing the Health Insurance Portability and Accountability Act (HIPAA), versions 5010 & D.0 production transactions by December 31, 2011. Beginning January 1, 2012, all electronic claims, eligibility and claim status inquiries, must use versions 5010 or D.0. version 4010/5.1 claims and related transactions will no longer be accepted. The electronic remittance advice will only be available in the 5010 version.

Caution – what you need to know

You must comply with this important deadline to avoid delays in payments for Medicare fee-for-service (FFS) claims after December 31, 2011. The implementation requires changes to the software, systems, and perhaps procedures that you use for billing Medicare and other payers.

Go – what you need to do.

Contact your MACs to receive the free version 5010 software (PC-Ace Pro32) and begin testing now. Consider contracting with a version 5010 compliant clearinghouse who can translate the non-compliant transactions into compliant 5010 transactions. For Part B and DME providers, download the free Medicare Remit Easy Print (MREP) software to view and print compliant HIPAA 5010 835 remittance advices, which are available at *http://www.cms.gov/AccesstoDataApplication/02_MedicareRemitEasyPrint.asp*. Part A providers may download the free PC-Print software to view and print compliance HIPAA 5010 835 remittance advices, which is available on your A/B MACs website. Contact your respective professional associations and other payers for guidance and resources in order to meet their deadlines.

Background

HIPAA requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards that covered entities (health plans, health care clearinghouses, and certain health care providers) must use when they electronically conduct certain health care administrative transactions, such as claims, remittance, eligibility, claims status requests and responses, and others.

The implementation of HIPAA 5010 and the National Council for Prescription Drug Programs (NCPDP) version D.0 presents substantial changes in the content of the data that you submit with your claims, as well as the data available to you in response to your electronic inquiries. The implementation requires changes to the software, systems, and perhaps procedures that you use for billing Medicare and other payers.

Version 5010 refers to the revised set of HIPAA transaction standards adopted to replace the current version 4010/4010A standards. Every standard has been updated, from claims to eligibility to referral authorizations.

All HIPAA covered entities must transition to version 5010 by January 1, 2012. Any electronic transaction for which a standard has been adopted must be submitted using version 5010 on or after January 1, 2012. Electronic transactions that do not use version 5010 are not compliant with HIPAA and will be rejected.

To allow time for testing, CMS began accepting electronic transactions using either version 4010/4010A or version 5010 standards on January 1, 2011, and will continue to do so through December 31, 2011. This process allows a provider and its vendors to complete end-to-end testing with Medicare contractors and demonstrate that they are able to operate in production mode with versions 5010 and D.0.

Electronic transactions that do not use version 5010 on or after January 1, 2012, will be rejected.

Note: HIPAA standards, including the ASC X12 version 5010 and version D.0 standards are national standards and apply to your transactions with all payers, not just with FFS Medicare. Therefore, you must be prepared to implement these transactions for your non-FFS Medicare business as well.

Are you at risk of missing the deadline?

If you can answer NO to any of the following questions, you are at risk of not being able to meet the January 1, 2012, deadline and not being able to submit claims:

1. Have you contacted your software vendor (if applicable) to ensure that they are on track to meet the deadline or contacted your MAC to get the free version 5010 software (PC-Ace Pro32)?

continued on next page

5010...*continued*

2. Alternatively, have you contacted clearinghouses or billing services to have them translate your version 4010 transactions to version 5010 (if not converting your older software)?
3. Have you identified changes to data reporting requirements?
4. Have you started to test with your trading partners, which began on January 1, 2011?
5. Have you started testing with your MAC, which is required before being able to submit bills with the version 5010?
6. Have you updated MREP software to view and print compliant HIPAA 5010 835 remittance advices?

Additional information

New fact sheet available on version 5010 testing readiness

All covered entities under the Health Insurance Portability and Accountability Act (HIPAA) must be ready to implement the version 5010 transaction standards on January 1, 2012. A critical step to reaching this milestone is testing version 5010 transactions prior to going live. With less than four months until the transition, it is time to take action, especially on external (Level II) testing. The Centers for Medicare & Medicaid Services (CMS) has posted a new *fact sheet* to help you better understand testing and the steps involved.

External testing with business partners in the new version 5010 format will ensure that you are able to send and receive compliant transactions prior to the deadline. You should begin testing as soon as possible if you have not already done so. Waiting until the last minute may result in long testing queues, so plan ahead to avoid the rush.

Here are some suggested steps to take now:

- Identify the partners you currently conduct transactions with
- Create a schedule and timeline for external testing with each partner
- Identify priority partners to conduct testing with if you trade with a large number of business partners

Keep up-to-date on version 5010

Please visit the 5010 website located at *https://www.CMS.gov/Versions5010andD0/* for the latest news and resources to help you prepare today.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Source: CMS PERL 201109-53

Full 5010 implementation is coming soon

The HIPAA 5010 compliance date is fast-approaching. There are less than 100 days left until full implementation on January 1, 2012.

As of January 1, 2012, version 5010 will be required for all HIPAA standard transactions. This means:

- Beginning January 1, 2012, HIPAA version 4010A1 will no longer be accepted by Medicare.
- All trading partners must operate in HIPAA version 5010.

It is essential to begin the transition now to prevent a disruption to your claims processing and cash flow. If you have not done so already, the Centers for Medicare & Medicaid Services (CMS) strongly encourages you to begin exchanging version 5010 transactions with your Medicare administrative contractor (MAC) now to ensure compliance with the January 1, 2012, impact date.

As a reminder, CMS offers free billing software that is version 5010 compliant. Please contact your MAC, fiscal intermediary (FI) or carrier to obtain the latest version of PC-Ace Pro32. CMS also provides the Medicare Remit Easy Print (MREP) software to view and print compliant HIPAA 5010 - 835 remittance advices. Please visit *http://www.cms.gov/AccesstoDataApplication/02_MedicareRemitEasyPrint.asp* to view this software.

More information

Medicare fee-for-service (FFS) providers should take advantage of the many resources we have provided on the 5010 dedicated website located at *https://www.cms.gov/Versions5010andD0/*.

Don't wait! **Test now to avoid possible delays in payment due to the end-of-year rush in 5010 testing.** Testing now will allow time for any needed corrections prior to January 1, 2012, the date when only 5010 transactions will be accepted.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Visit our HIPAA 5010 section of the provider website where you'll learn the latest news about HIPAA 5010, find out how to prepare for 5010 testing, and discover the resources you need to make your the transition to 5010 as smooth as possible. Don't wait – call FCSO's EDI to test now – 888-670-0940, option-5.

Less than 90 days left until full 5010 implementation

Version 5010 testing week shows promising results

The Centers for Medicare & Medicaid Services (CMS) version 5010 team held its second national testing event the week of Monday, August 22, 2011, to Friday, August 26, 2011. During national testing week, 1,252 Medicare fee-for-service (FFS) trading partners conducted testing with the Medicare administrative contractors using the version 5010 format that all covered entities are required to use beginning Sunday, January 1, 2012.

Results

These 1,252 trading partners submitted a total of 67,782 test files and no significant error scenarios were reported. Additionally, 74 trading partners responded to a follow-up survey about national testing week that found that:

- 45 percent of those surveyed responded that they were testing the 837I with Medicare;
- 72 percent responded they were testing the 837P with Medicare;
- 43 percent responded they were testing the 835 with Medicare;
- 24 percent responded they were testing the 276/277 with Medicare; and
- 54 percent responded they were exchanging test files with payers other than Medicare.

Additional results show that transition to production is progressing. Twenty-six percent of trading partners stated they were currently in production status, with an additional 42 percent stating that they expect to be in production status within the next month. Most respondents (72 percent) stated that they were able to receive and process a 277CA while testing.

More information

Medicare FFS providers should take advantage of the many resources we have provided on the 5010-dedicated website at *http://www.CMS.gov/Versions5010andD0*.

5010/D.0 implementation items

The HIPAA 5010 compliance date is fast approaching. There are less than 90 days left until full implementation on Sunday, January 1, 2012. Don't wait. Contact your local Medicare administrative contractor and test now to avoid possible delays in payment due to the end-of-year rush in 5010 testing. Testing now will allow time for any needed corrections prior to Sunday, January 1 – the date when only 5010 transactions will be accepted.

Reminders

- Saturday, January 1, 2011, marked the beginning of the 5010/D.0 transition year
- *Versions 5010 & D.0 FAQs Now Available!*
- *National Testing Day Message Now Available!*
- *5010/D.0 Errata requirements and testing schedule can be found here*
- *Contact your MAC for their testing schedule*

Readiness assessment

- *Have you done the following to be ready for 5010/D.0.?*
- *What do you need to have in place to test with your Medicare administrative contactor (MAC)?*
- *Do you know the implications of not being ready?*

5010/D.0 implementation calendar

Upcoming events

Wednesday, November 9 – CMS-hosted 5010 national provider call – HIPAA 5010 status update

Wednesday, December 7 – CMS-hosted 5010 national provider call – question and answer session

Saturday, December 31 – end of the transition year; beginning of 5010 production environment

Past events

For a complete list of past 5010 national provider calls, please visit the *5010 national provider calls section of our versions 5010 & D.0 website*.

2012 ICD-10-PCS GEMs files now available

The Centers for Medicare & Medicaid Services (CMS) has posted the 2012 ICD-10 procedure coding system (PCS) general equivalence mappings (GEMs) files to the CMS website. These files are available on the 2012 ICD-10-PCS and GEMs Web page at *http://www.cms.gov/ICD10/11b15_2012_ICD10PCS.asp*. To access the files, scroll to the bottom of the page to the "Downloads" section.

Also available on the 2012 ICD-10 PCS and GEMs Web page:

- Official ICD-10-PCS coding guidelines
- 2012 version – what's new
- Code tables and index
- Code descriptions – long and abbreviated titles
- Development of the ICD-10-PCS
- ICD-10-PCS reference manual and slides
- Addendum

Coming December 2011 – the 2012 ICD-10-CM (diagnosis) files, the diagnosis GEMs, and the reimbursement mappings

Is your organization preparing for a smooth transition to ICD-10 on October 1, 2013?

The CMS ICD-10 website at *www.cms.gov/icd10* is a valuable resource to help you prepare for the U.S. health care industry's change from ICD-9 to ICD-10 for medical diagnosis and inpatient procedure coding. Bookmark this website and check back frequently for the latest news, resources, compliance timelines, and teleconference information, or get notification of website updates by signing up for the *CMS ICD-10 industry email updates* mailing list.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Information for institutional providers regarding billing of new influenza virus vaccine (*CPT* code *90654*)

Effective for claims with dates of service on or after Monday, May 9, 2011, Medicare will begin paying for *Current Procedural Terminology* (*CPT)* code *90654* for the influenza virus vaccine, split virus, preservative-free, for intradermal use.

The Centers for Medicare and Medicaid Services (CMS) has instructed Medicare contractors to hold all institutional claims containing *CPT* code *90654* with dates of service on or after Monday, May 9, 2011, until their systems are able to accept them for processing, no later than Monday, April 2, 2012. Medicare institutional providers also have the option to hold their claims containing *CPT* code *90654* until Monday, April 2, 2012.

CMS will issue additional information regarding vaccine payments via change request.

How can the PDS help my practice?

The Provider Data Summary (PDS) can help you quickly identify potential billing issues through detailed analysis of personal billing patterns in comparison with those of similar providers. Additional information, including a quick-start guide to help you easily get started right away, is available at *http://medicare.fcso.com/PDS/index.asp.*

Pharmacy billing for drugs provided "incident to" a physician service

Note: This article was revised on September 26, 2011, to reflect the revised change request (CR) 7397 issued on September 23. The effective and implementation dates were changed. Also, the CR release date, transmittal number, and the Web address for accessing CR 7397 were revised. All other information remains the same. This information was previously published in the August 2011 *Medicare A Connection*, page 22.

Provider types affected

Pharmacies that submit claims for drugs to Medicare contractors (fiscal intermediaries (FIs), carriers, regional home health intermediaries (RHHIs), A/B Medicare administrative contractors (A/B MACs), and durable medical equipment MACs) are affected.

What you should know

This article is based on CR 7397, which clarifies policy with respect to restrictions on pharmacy billing for drugs provided "incident to" a physician service. The CR also clarifies policy for the local determination of payment limits for drugs that are not nationally determined.

This article notes that CR 7397 rescinds and fully replaces CR 7109. Please be sure your staffs are aware of this update.

Background

Pharmacies billing drugs

Pharmacies may bill Medicare Part B for certain classes of drugs, including immunosuppressive drugs, oral anti-emetic drugs, oral anti-cancer drugs, and drugs self-administered through any piece of durable medical equipment.

- Claims for these drugs are generally submitted to the durable medical equipment Medicare administrative contractor (DME MAC). The carrier or A/B MAC will reject these claims as they need to be sent to the DME MAC.
- In the rare situation where a pharmacy dispenses a drug that will be administered through implanted DME and a physician's service will not be utilized to fill the pump with the drug, the claim is submitted to the A/B MAC or carrier.

The DME MAC, A/B MAC, or carrier will make payment to the pharmacy for these drugs, when deemed to be covered and reasonable and necessary. All bills submitted to the DME MAC, A/B MAC, or carrier must be submitted on an assigned basis by the pharmacy.

When drugs may not be billed by pharmacies to Medicare Part B

Pharmacies, suppliers and providers may not bill Medicare Part B for drugs dispensed directly to a beneficiary for administration "incident to" a physician service, such as refilling an implanted drug pump. These claims will be denied.

Pharmacies may not bill Medicare Part B for drugs furnished to a physician for administration to a Medicare beneficiary. When these drugs are administered in the physician's office to a beneficiary, the only way these drugs can be billed to Medicare is if the physician purchases the drugs from the pharmacy. In this case, the drugs are being administered "incident to" a physician's service and pharmacies may not bill Medicare Part B under the "incident to" provision.

Payment limits

The payment limits for drugs and biologicals that are not included in the average sales price (ASP) Medicare Part B Drug Pricing File or Not Otherwise Classified (NOC) Pricing File are based on the published wholesale acquisition cost (WAC) or invoice pricing, except under the outpatient prospective payment system (OPPS) where the payment allowance limit is 95 percent of the published average wholesale price (AWP). In determining the payment limit based on WAC, the payment limit is 106 percent of the lesser of the lowest-priced brand or median generic WAC.

Medicare contractors will not search their files to either retract payment for claims already paid or to retroactively pay claims, but will adjust claims brought to their attention.

Additional information

The official instruction, CR 7397 issued to your Medicare contractor regarding this issue may be viewed at *http://www.cms.gov/Transmittals/downloads/R2312CP.pdf*.

Claim adjustments for counseling to prevent tobacco use

The Centers for Medicare & Medicaid Services (CMS) will be making adjustments to claims for counseling to prevent tobacco use with dates of service Saturday, January 1, 2011, through Monday, April 4, 2011. These adjustments will be completed by Friday, November 4, 2011.

In a previous message (PERL 201108-16), you were made aware of a claims processing problem where claims with the following criteria were not processing correctly:

- HCPCS G0436 and/or G0437
- Revenue codes 0942, 096X, 097X, or 098X
- Dates of service on or after Saturday, January 1, 2011
- Diagnosis codes 305.1 or V15.82
- Occurrence code 32 not present

This claims processing problem was corrected in May 2011, and CMS released any claims it was holding. CMS will now be adjusting any claims that were processed incorrectly with the above mentioned criteria. If you have any claims impacted by this problem, the adjustment will be reflected on your remittance advice. CMS appreciates your patience as it corrects these claims.

Find fees faster: Try FCSO's fee schedule lookup

Find the fee schedule information you need fast – with FCSO's fee schedule lookup, located at *http://medicare.fcso.com/Fee_lookup/fee_schedule.asp* This exclusive online resource features an intuitive interface that allows you to search for fee information by procedure code. Plus, you can find any associated local coverage determinations (LCDs) with just the click of a button.

FY 2012 inpatient psychiatric facility prospective payment system changes

Provider types affected

Hospitals submitting claims to Medicare fiscal intermediaries (FIs) or Part A/B Medicare administrative contractors (A/B MACs) for inpatient psychiatric services provided to Medicare beneficiaries and paid under the inpatient psychiatric facility prospective payment system (IPF PPS) are affected.

What you need to know

This article is based on change request (CR) 7506, which informs Medicare contractors about the fiscal year (FY) 2012 update to the Medicare severity diagnosis related groups (MS-DRGs) and ICD-9-CM coding. The coding changes require an update to the inpatient psychiatric facility prospective payment system's (IPF PPS') comorbidity adjustment, effective October 1, 2011. Please be sure to inform your staffs of these changes.

Background

IPF PPS rate changes

The IPF PPS rate changes occurred on July 1, 2011. Please see the *MLN* Matters® article MM7367, "Update-Inpatient Psychiatric Facilities Prospective Payment System (IPF PPS) Rate Year 2012," issued on May 20, 2011, for the IPF PPS policy changes. To review this article, visit *http://www.cms.gov/MLNMattersArticles/downloads/MM7367.pdf* on the Centers for Medicare & Medicaid Services (CMS) website.

DRG adjustment update

The IPF PPS has DRG specific adjustments for MS-DRGs. The Centers for Medicare & Medicaid Services (CMS) provides payment under the IPF PPS for claims with a principal diagnosis included in Chapter Five of the ICD-9-CM or the DSM-IV-TR. However, only those claims with diagnoses that group to a psychiatric MS-DRG will receive a DRG adjustment and all other applicable adjustments. Although the IPF will not receive a DRG adjustment for a principal diagnosis not found in one of Medicare's identified psychiatric DRGs, the IPF will still receive the Federal per diem base rate and all other applicable adjustments.

The IPF PPS uses the same Grouper as the IPPS, including the same diagnostic code set and MS-DRG classification system, in order to maintain consistency. The updated codes are effective October 1 of each year. Although the code set is being updated, note that these are the same adjustment factors in place since implementation.

Based on changes to the ICD-9-CM coding system used under the IPPS, the following changes are being made to the principal diagnoses that are used to assign MS-DRGs under the IPF PPS. The following table lists the FY 2012 new ICD-9-CM diagnosis codes that group to one of the MS-DRGs for which the IPF PPS provides an adjustment. This table is only a listing of FY 2012 new codes, and does not reflect all of the currently valid and applicable ICD-9-CM codes classified in the MS-DRGs. When coded as a principal diagnosis, these codes receive the correlating MS-DRG adjustment.

Diagnosis codes	Description	MS-DRG
294.20	Dementia, unspecified, without behavioral disturbance	884
294.21	Dementia, unspecified with behavioral disturbance	884
310.81	Pseudobulbar affect	056,057
310.89	Other specified nonpsychotic mental disorders following organic brain damage	056,057
358.30	Lambert-Eaton syndrome, unspecified	056, 057
358.31	Lambert-Eaton syndrome, in neoplastic disease	056, 057
358.39	Lambert-Eaton syndrome in other diseases classified elsewhere	056, 057
331.6	Corticobasal degeneration	056, 057

Clarification of evaluation and management payment policy

Provider types affected

Physicians, non-physician practitioners (NPP), and hospices billing fiscal intermediaries (FI), regional home health intermediaries (RHHI), carriers, and A/B Medicare administrative contractors (A/B MAC) for certain services to Medicare beneficiaries are affected by this article.

What you need to know

This article, based on change request (CR) 7405, alerts physicians, NPPs and hospices that the Centers for Medicare & Medicaid Services (CMS) recognized the newly created *Current Procedural Terminology (CPT)* subsequent observation care codes (*99224-99226*). The article also clarifies the use of evaluation and management (E/M) codes by providers for services in various settings.

Medicare contractors will not search their files to adjust claims already processed, but will adjust claims brought to their attention. Be sure your billing staffs are aware of these changes.

Background

In the calendar year (CY) 2010 physician fee schedule (PFS) final rule with comment period (CMS-1413-FC), CMS eliminated the payment of all *CPT* consultation codes (inpatient and office/outpatient codes) for various places of service except for telehealth consultation Healthcare Common Procedure Coding System (HCPCS) G-codes.

In the CY 2011 PFS final rule with comment period (CMS-1503-FC), CMS recognized the newly created CPT subsequent observation care codes (99224-99226).

All references to billing CPT consultation codes in the *Medicare Benefit Policy Manual*, Chapter 15, and the *Medicare Claims Processing Manual*,12, are revised, as a result of CR 7405, to reflect the current policy on reporting E/M services that would otherwise be described by *CPT* consultation codes.

References to billing observation care codes in the *Medicare Claims Processing Manual*, Chapter 12, section 30.6, are also revised to account for the new subsequent observation care codes (*99224-99226*).

Key points of CR 7405

Consultation codes no longer recognized

Effective January 1, 2010, *CPT* consultation codes were no longer recognized for Medicare Part B payment. A previous article, MM6740, Revisions to Consultation Services Payment Policy, issued on December 14, 2009, informed you that you must code patient evaluation and management visits with E/M codes that represent where the visit occurred and that identify the complexity of the visit performed. (MM6740, Revisions to Consultation Services Payment Policy, is available at *http://www.cms.gov/MLNMattersArticles/downloads/MM6740.pdf*)

- CMS instructed physicians (and qualified NPPs where permitted) billing under the physician fee service (PFS) to use other applicable E/M codes to report the services that could be described by CPT consultation codes.
- CMS also provided that, in the inpatient hospital setting, physicians (and qualified NPPs where permitted) who perform an initial E/M service may bill the initial hospital care codes (*99221 – 99223*).

Reporting initial hospital care codes

CMS is aware of concerns pertaining to reporting initial hospital care codes for services that previously could have been reported with *CPT* consultation codes, for which the minimum key component work and/or medical necessity requirements for *CPT* codes *99221* through *99223* are not documented.

- Physicians may bill initial hospital care service codes (*99221-99223*), for services that were reported with *CPT* consultation codes (*99241-99255*) prior to January 1, 2010, when the furnished service and documentation meet the minimum key component work and/or medical necessity requirements. Physicians must meet all the requirements of the initial hospital care codes, including “a detailed or comprehensive history” and “a detailed or comprehensive examination” to report *CPT* code *99221*, which are greater than the requirements for consultation codes *99251* and *99252*.
- In situations where the minimum key component work and/or medical necessity requirements for initial hospital care services are not met, subsequent hospital care *CPT* codes (*99231* and *99232*) could potentially be reported for an

continued on next page

E/M...*continued*

E/M service that could be described by *CPT* consultation code *99251* or *99252*.

- Subsequent hospital care *CPT* codes *99231* and *99232*, respectively, require "a problem focused interval history" and "an expanded problem focused interval history." An E/M service that could be described by *CPT* consultation code *99251* or *99252* could potentially meet the component work and medical necessity requirements to report *99231* or *99232*. Physicians may report a subsequent hospital care *CPT* code for services that were reported as *CPT* consultation codes (*99241-99255*) prior to January 1, 2010, where the medical record appropriately demonstrates that the work and medical necessity requirements are met for reporting a subsequent hospital care code (under the level selected), even though the reported code is for the provider's first E/M service to the inpatient during the hospital stay.
- Reporting *CPT* code *99499* (*unlisted evaluation and management service*) should be limited to cases where there is no other specific E/M code payable by Medicare that describes that service. Reporting *CPT* code *99499* requires submission of medical records and contractor manual medical review of the service prior to payment. Contractors shall expect reporting under these circumstances to be unusual.

Medicare contractors have been advised to expect changes to physician billing practices accordingly. Contractors will not find fault with providers who report subsequent hospital care codes (*99231* and *99232*) in cases where the medical record appropriately demonstrates that the work and medical necessity requirements are met for reporting a subsequent hospital care code (under the level selected), even though the reported code is for the provider's first E/M service to the inpatient during the hospital stay.

Billing visits provided in skilled nursing facilities and nursing facilities

The general policy of billing the most appropriate visit code, following the elimination of payments for consultation codes, will also apply to billing initial visits provided in skilled nursing facilities (SNFs) and nursing facilities (NFs) by physicians and NPPs who are not providing the federally mandated initial visit. If a physician or NPP is furnishing that practitioner's first E/M service for a Medicare beneficiary in a SNF or NF during the patient's facility stay, even if that service is provided prior to the federally mandated visit, the practitioner may bill the most appropriate E/M code that reflects the services the practitioner furnished, whether that code be an initial nursing facility care code (*CPT* codes *99304-99306*) or a subsequent nursing facility care code (*CPT* codes *99307-99310*), when documentation and medical necessity do not meet the requirements for billing an initial nursing facility care code.

CPT subsequent observation care codes

- In CY 2011 PFS final rule with comment period (CMS-1503-FC), CMS recognized the newly created *CPT* subsequent observation care codes (*99224-99226*).
- For the new subsequent observation care codes, the current policy for initial observation care also applies to subsequent observation care.
- Payment for a subsequent observation care code is for all the care rendered by the treating physician on the day(s) other than the initial or discharge date.
- All other physicians who furnish consultations or additional evaluations or services while the patient is receiving hospital outpatient observation services must bill the appropriate outpatient service codes.
- In the rare circumstance when a patient receives observation services for more than 2 calendar dates, the physician will bill observation services furnished on day(s) other than the initial or discharge date using subsequent observation care codes.

Additional information

The official instruction, CR 7405, was issued to your FI, RHHI, carrier and A/B MAC via two transmittals. The first updates the *Medicare Benefit Policy Manual* and is at *http://www.cms.gov/Transmittals/downloads/R147BP.pdf*. The second transmittal updates the *Medicare Claims Processing Manual* and is at *http://www.cms.gov/Transmittals/downloads/R2282CP.pdf*. If you have any questions, please contact your FI, RHHI, carrier or A/B MAC at their toll-free number, which may be found at *http://www.cms.gov/MLNProducts/downloads/CallCenterTollNumDirectory.zip*.

Ambulance inflation factor for calendar year 2012

Provider types affected

This article is for providers and suppliers of ambulance services who bill Medicare carriers, fiscal intermediaries (FIs), or Part A/B Medicare administrative contractors (A/B MACs) for those services.

What you need to know

Change request (CR) 7546, from which this article is taken, updates the *Medicare Claims Processing Manual* by providing the ambulance inflation factor (AIF) for calendar year (CY) 2012 so that Medicare carriers, FIs, and A/B MACs can accurately determine the payment amounts for ambulance services. **The AIF for CY 2012 is 2.4 percent**. You should ensure that your billing staffs are aware of this 2012 AIF.

Background

Section 1834(l) (3) (B) of the Social Security Act (the Act) provides the basis for updating the payment limits that carriers, FIs, and A/B MACs use to pay for the claims that you submit for ambulance services. Specifically, this section of the Act provides for a yearly payment update that is equal to the percentage increase in the urban consumer price index (CPI-U), for the 12-month period ending with June of the prior year.

On March 23, 2010, Section 3401 of the Affordable Care Act amended Section 1834(l)(3) of the Act to require that specific prospective payment system and fee schedule update factors be adjusted by changes in economy-wide productivity. The statute defines the productivity adjustment to be equal to the 10-year moving average of changes in annual economy-wide private nonfarm business multi-factor productivity (MFP) (as projected by the Secretary for the 10-year period ending with the applicable fiscal year, cost reporting period, or other annual period). The MFP for CY 2012 is 1.2 percent and the CPI-U for 2012 is 3.6 percent. According to the Affordable Care Act, the CPI-U is reduced by the MFP, even if this reduction results in a negative AIF update. Therefore, the AIF for CY 2012 is 2.4 percent.

Note: The Part B coinsurance and deductible requirements apply to payments under the ambulance fee schedule.

Additional information

You can find the official instruction, CR 7546, issued to your carrier, FI, or A/B MAC by visiting *http://www.cms.gov/Transmittals/downloads/R2310CP.pdf*. You will find the updated *Medicare Claims Processing Manual* Chapter 15 (Ambulance), Section 20.4 (Ambulance Inflation Factor (AIF)) as an attachment to that CR.

If you have any questions, please contact your carrier, FI, or A/B MAC at their toll-free number, which may be found at *http://www.cms.gov/MLNProducts/downloads/CallCenterTollNumDirectory.zip*.

Updates to the Internet-only manual Publication 100-04, Chapter 15 – Ambulance to include MMEA provisions

Provider types affected

This article is for ambulance providers/suppliers submitting claims to Medicare contractors (carriers, fiscal intermediaries (FIs), and/or A/B Medicare administrative contractors (A/B MACs)) for ambulance services provided to Medicare beneficiaries.

What you need to know

Change request (CR) 7558 updates Chapter 15 of the Centers for Medicare & Medicaid Services (CMS) *Medicare Claims Processing Manual* to include the correct extension dates per the Medicare and Medicaid Extenders Act of 2010 (MMEA). CR 7558 instructs contractors to ensure that they are in compliance with the instructions found in Chapter 15 of the *Medicare Claims Processing Manual*.

The MMEA of 2010 extends the increase in the ambulance fee schedule amounts for covered ground ambulance transports which originated in rural areas by three percent and for covered ground ambulance transports which originated in urban areas by two percent through December 31, 2011. The MMEA of 2010 also extends the "super-rural" bonus an additional year, through December 31, 2011.

Background

Urban and rural ambulance payment extensions

The Medicare Improvements for Patients and Providers Act of 2008 (MIPAA) provided for an increase in the ambulance fee schedule amounts for covered ground ambulance transports which originated in rural areas by three percent and for covered ground ambulance transports which originated in urban areas by two percent. These increases were only applicable for claims with dates of service July 1, 2008, through December 31, 2009. The Patient Protection and Affordable Care Act of 2010 reinstated these provisions to on or after January 1, 2010. **Subsequently, the MMEA again extended the payment add-ons an additional year through December 31, 2011.**

"Super-rural" ambulance payment extension

In addition, Section 414 of the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA) specified that, for services furnished during the period July 1, 2004, through December 31, 2009, the payment amount for the ground ambulance base rate was increased where the ambulance transport originated in a rural area included in those areas comprising the lowest 25th percentile of all rural populations arrayed by population density. For this purpose, rural areas included Goldsmith areas (a type of rural census tract). Approximately half of all rural areas (rural counties plus Goldsmith areas) were required to include 25 percent of the rural population arrayed in order of population density. The amount of this increase was based on the secretary's estimate of the ratio of the average cost per trip for the rural areas comprised of the lowest quartile of population arrayed by density compared to the average cost per trip for the rural areas comprised of the highest quartile of population arrayed by density. CMS determined that the amount of this increase was equal to 22.6 percent. The Patient Protection and Affordable Care Act of 2010 reinstated this provision for claims with dates of service on or after January 1, 2010, and before January 1, 2011, using the percentage increase that was applicable under this provision for ambulance services during 2009. **Subsequently, the MMEA again extended the rural bonus an additional year, through December 31, 2011.**

Additional information

Educational Events

Upcoming provider outreach and educational events – December 2011

Bimonthly Medicare Part A ACT: Medicare changes and hot issues

When: Tuesday, December 6
Time: 11:30 a.m. – 1:00 p.m. ET **Delivery language:** English
Type of Event: Webcast **Focus:** Florida, Puerto Rico, and the U.S. Virgin Islands

Two easy ways to register

1. **Online** – Visit our provider training website at *www.fcsouniversity.com*, logon to your account and select the course you wish to register. Class materials are available under "My Courses" no later than one day before the event**.**

   First-time user? Set up an account by completing "Request a New Account" online. Providers who do not have a national provider identifier may enter "99999" in the NPI field. You will receive logon information within 72 hours of your request.

2. **Fax** – Providers without Internet access may request a fax registration form through our Registration Hotline at 904-791-8103. Class materials will be faxed to you the day of the event.

Please note:

- Pre-registration is required for all teleconferences, webcasts and in-person educational seminars.
- Dates and times are subject to change prior to opening of event registration.

Registrant's Name: _____

Registrant's Title: _____

Provider's Name: _____

Telephone Number: _____ Fax Number: _____

Email Address: _____

Provider Address: _____

City, State, ZIP Code: _____

Keep checking the *Education* section of our website, *medicare.fcso.com*, for details and newly scheduled educational events (teleconferences, webcasts, etc.) or call the FCSO Provider Education Registration Hotline at 904-791-8103 to learn more about the about our newest training opportunities for providers.

Never miss a training opportunity

If you were unable to attend one of our past Medicare educational webcasts, you still have the opportunity to learn about the topics covered during the training session. Visit *medicare.fcso.com*, download the recording of the event, and listen to the webcast when you have the time.

Take advantage of 24-hour access to free online training

In addition to our live training events, we also offer you the advantage of self-paced, free online courses that will allow you and your staff to train when and where it is most convenient for you. Our comprehensive course catalog allows you to find the Medicare training that fits your specific needs, and several of our online courses offer CEUs. Explore our catalog of online courses and learn more at *www.fcsouniversity.com*.

Other Educational Resources

CMS recognizes October as National Breast Cancer Awareness Month

Breast cancer is the most frequently diagnosed non-skin cancer in women and is second only to lung cancer as the leading cause of cancer-related deaths among women in the United States. Medicare provides coverage for an annual screening mammogram for all female beneficiaries aged 40 or older, as well as coverage for one baseline mammogram for female beneficiaries between the ages of 35 and 39.

What can you do?

As a health care professional who provides care to patients with Medicare, you can help protect the health of your patients by talking with them about the importance of regular mammography screening and encouraging them to take advantage of Medicare-covered screening mammograms, as appropriate for them.

For more information

- *The Guide to Medicare Preventive Services for Healthcare Professionals (see Chapter 8)*
- *Medicare Preventive Services Quick Reference Information Chart*
- *Cancer Screenings Brochure for Physicians, Providers, Suppliers, and Other Healthcare Professionals*
- *Department of Health and Human Services*
- *National Breast Cancer Awareness Month official website*
- *The CDC's Breast Cancer Awareness website*
- *The CDC's National Breast and Cervical Cancer Early Detection Program*

Thank you for joining the Centers for Medicare & Medicaid Services (CMS) in educating beneficiaries about the importance of taking advantage of Medicare-covered screening mammograms.

Vaccinate early to protect against the flu

The Centers for Disease Control and Prevention recommends a yearly flu vaccination as the first and most important step in protecting against flu viruses. Remind your patients that annual vaccination is recommended for optimal protection. Medicare pays for the flu vaccine and its administration for seniors and other Medicare beneficiaries with no copay or deductible. Take advantage of each office visit and start protecting your patients as soon as your 2011-2012 seasonal flu vaccine arrives. And don't forget to immunize yourself and your staff. Get the flu vaccine – not the flu.

Remember – influenza vaccine plus its administration are covered Part B benefits. Note that the influenza vaccine is **not** a Part D covered drug. For information about Medicare's coverage of the influenza vaccine and its administration, as well as related educational resources for health care professionals and their staff, please visit *http://www.CMS.gov/MLNProducts/35_PreventiveServices.asp*.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.

Source: CMS PERL 201109-64

Expanded Benefits brochure available

The *Medicare Learning Network*® would like to remind you that the publication, *Expanded Benefits,* is available in downloadable format at *http://www.CMS.gov/MLNProducts/downloads/Expanded_Benefits.pdf*. This brochure is designed to provide education on three preventive services: the initial preventive physical examination (IPPE), also known as the "Welcome to Medicare" physical exam or the "Welcome to Medicare" visit; ultrasound screening for abdominal aortic aneurysms; and cardiovascular screening blood tests.

Note: If you have problems accessing any hyperlink in this message, please copy and paste the URL into your Internet browser.
