

Medicare B Update!

A Newsletter for Connecticut and Florida Medicare Part B Providers

First Update to the 2005 Medicare Physician Fee Schedule Database

CMS has issued the following "Medlearn Matters... Information for Medicare Providers" article.

Provider Types Affected

Physicians and providers billing Medicare carriers or fiscal intermediaries (FIs) for services paid under the Medicare Physician Fee Schedule

Provider Action Needed

Physicians and providers should be aware of the changes to the Medicare Physician Fee Schedule Database, and identify those changes that impact their practice.

Background

CR 3726 amends payment files issued based upon the November 15, 2004, Final Rules for the 2005 Medicare Physician Fee Schedule Database. Many of the changes relate to a national coverage determination (NCD) related to G codes and CPT codes for positron emission tomography (PET), which was effective January 30, 2005.

Additional Information

The actual changes to the fee schedule involve numerous CPT/HCPCS codes. These changes to the first update to the 2005 Medicare Physician Fee Schedule Database are described in an attachment to CR 3726.

For complete details, please see the official instruction issued to your carrier/FI regarding this change. That instruction may be viewed at: http://www.cms.hhs.gov/manuals/transmittals/comm_date_dsc.asp

From that web page, look for CR 3726 in the CR NUM column on the right, and click on the file for that CR.
