Amended Payment Cap for the Technical Component of Imaging Services

Note: This instruction supersedes the information published in the January 2007 Medicare B Update! (pages 14-22)

Section 5102(b) of the Deficit Reduction Act of 2005 requires a payment cap on the technical component (TC) of imaging services. Effective January 1, 2007, payment for the TC of imaging services including the TC portion of the global imaging service will be capped based on the outpatient prospective payment system (OPPS).

Carriers have been issued revised payment files based upon the December 1, 2006, Medicare physician fee schedule (MPFS) final rule and Transmittal 1143, Change Request 5459, Emergency Update to the 2007 Medicare Physician Fee Schedule Database.

As a result, the OPPTS amounts for codes subject to the OPPTS cap were amended.

Providers will have to determine payment amounts by comparing the MPFS/carrier-priced amount to the cap amount in this instruction for the TC and global portion of imaging services. The lower amount will be the amount paid.
